Part VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Council of State on the 17th February, 1930:—

COUNCIL OF STATE BILL No. 1 OF 1930

A Bill further to amend the Special Marriage Act, 1872, for certain purposes.

Whereas it is expedient further to amend the Special Marriage Act, 1872, for the purposes hereinafter appearing; It is hereby enacted as follows :— III of 1872.

Short title.

1. This Act may be called the Special Marriage (Amendment) Act, 1930.

Amendment of the First Schedule, Act III of 1872.

2. In the First Schedule to the Special Marriage Act, 1872 (hereinafter referred to as the said Act), in the heading of the form of notice of marriage, for the word "Names" the words "Name and father's name" and for the word "Dwelling-place" the words "Address in full", shall be substituted. III of 1872.

Amendment of the Second Schedule, Act III of 1872.

3. (*1*) In the Second Schedule to the said Act, in the form of declaration to be made by the bridegroom,

(*a*) in the opening line, after the letters "A B," the words and letters "son of M N," shall be inserted; and

(*b*) in paragraph 3, after the words "eighteen years", the following words shall be inserted, namely :—

"and my present age is years which is above/below twenty-one years";

(*2*) In the same Schedule, in the form of declaration to be made by the bride,—

(*a*) in the opening line, after the letters "C D," the words and letters "daughter/widow of M N," shall be inserted;

(*b*) in paragraph 3, after the words "fourteen years" the following words shall be inserted, namely :—

"and my present age is years which is above/below twenty-one years";

(*c*) of the words in italics after paragraph 4, the words "unless she is a widow" shall be omitted; and

(*d*) in paragraph 5, after the word "revoked;" the words "*or*, I am a widow :" shall be inserted.

(*3*) In the same Schedule, below the form of declaration to be made by the bride, for the words and brackets "(three witnesses)" the words and brackets "(three witnesses, with their addresses in full)" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Section 2 of the Special Marriage Act, 1872, prescribes the conditions under which marriages can be celebrated under the Act, one of which is that each party must, if he or she has not completed the age of 21 years, have obtained the consent of his or her father or guardian to the marriage. In the forms of declaration in the Second Schedule to the Act there is nothing to require the parties to declare their exact ages at the time of marriage. The result is that the Registrar of Marriages cannot enforce the provisions about consent if the parties refrain from filling in paragraph 5 of the declarations. In a recent case in the Calcutta High Court a Bench of that Court have brought to notice the desirability of supplying the omission. The Bill proposes to rectify this defect and to make certain other amendments in the forms, with the object of securing the proper identification of the parties and witnesses.

Report on Public Instruction in Bengal for the year 1928-29.

CHAPTER I.

Introductory.

Institutions and Pupils.—During the year that ended on 31st March 1929, the total number of recognised and unrecognised institutions in the Presidency rose from 63,354 in 1927-28 to 65,493 in 1928-29, and that of the pupils attending them from 2,501,712 to 2,625,222. Recognised institutions increased in number from 61,786 to 63,910 and unrecognised institutions from 1,568 to 1,583. The number of pupils reading in recognised institutions rose from 2,446,678 to 2,567,357; while in unrecognised institutions it increased from 55,034 to 57,865. Of the total number of pupils reading in the various institutions on the 31st March 1929, 2,129,098 were males and 496,124 were females as compared with 2,039,786 boys and 461,926 girls, respectively, returned on the corresponding date of the previous year.

2. **Different classes of recognised institutions.**—Of the total number of recognised institutions returned on 31st March 1929, 68 (including the University classes and the Board of Intermediate and Secondary Education, Dacca) were arts and professional colleges; 1,086 were high schools; 1,874 middle schools; 57,656 primary schools; and 3,226 special schools. The corresponding figures on the same date of the preceding year were* 65; 1,062, 1,822, 55,603 and 3,234, respectively. Of the recognised institutions 317 were maintained by Government and 4,379 by District and Municipal Boards; while of the rest 49,686 were aided and 9,528 unaided. The corresponding numbers in 1927-28 were 327, 4,270, 48,132 and 9,057, respectively. The decline in the number of institutions managed by Government was due to reduction in the number of old-type guru-training schools, as well as the transfer of certain A-class tea garden schools to the aided list.

3. **Expenditure on public instruction.**—The total expenditure on public instruction amounted in the year under review to Rs. 4,33,98,109 as compared with Rs. 4,14,72,735 spent in the preceding year. Of the total expenditure Rs. 1,53,04,485 was met from provincial revenues, Rs. 17,23,334 and Rs. 10,02,621, respectively, were provided from District and Municipal funds; while Rs. 1,78,30,680 accrued from fees and Rs. 75,36,989 from other private sources. The corresponding figures in 1927-28 were Rs. 1,49,88,087, Rs. 16,20,005, Rs. 8,90,210, Rs. 1,70,95,255 and Rs. 68,79,178, respectively. Increased expenditure thus occurred under each head

4. **Noteworthy features of the year 1928-29.**—The following were some of the salient features of the period under review:—

(*i*) The preparation by a Special Officer (Dr. W. A. Jenkins) of (*a*) a Secondary Education Bill by which the control of Secondary Education for boys in the Presidency will be transferred to a Board, (*b*) a Bill for the reorganisation of Calcutta University.

* Excludes the Dacca Board.

(*ii*) The consideration of Dr. P. N. Banerjee's Calcutta University Bill, 1927, which had been referred to a Select Committee, was deferred by the Mover in view of the preparation of the Government Bill.

(*iii*) Publication of the Report of the Select Committee on the Bengal (Rural) Primary Education Bill, 1927, which had been referred to a Select Committee. A considerable amount of propaganda was carried out by means of leaflets in the vernacular distributed by Sub-Inspectors in the villages to explain the objects of the Bill, and meetings were subsequently held to ascertain the attitude of the raiyats towards the Bill and, in particular, the question of the proposed cess. The reports received from all five divisions indicated that the passing of the Bill would be welcomed and that no serious objection had been expressed against the proposal that most of the cost of the increased facilities for education should be met by a 5-pice cess.

(*iv*) Constitution of a Primary Education Committee for the administration of the scheme of free and compulsory primary education that is in force within the jurisdiction of the Chittagong Municipality.

(*v*) Inspection of Colleges and Schools at various district head-quarters by the newly-appointed Director of Physical Education, with a view to drawing up a report on the state of Physical Education in the Province.

(*vi*) Visit of the Hartog Committee in December 1928 in connection with the Report on the Progress of Education under the Reforms to be presented to the Simon Commission. Various well-known educationalists in the Province appeared before the Committee and stated their views on the present educational position in the Province.

(*vii*) In the absence of any further grants for Primary education, the rate of increase of pupils reading in primary schools fell to 4·2 per cent. against 7·06 per cent. in the previous year. The allotment of further money is urgently necessary if the rate of increase is to be prevented, during the next year or two, from again falling to the low figure (1·7 per cent.) of 1925-26

CHAPTER II.

Controlling agencies.

Educational institutions in Bengal are controlled mainly by officers of the Education Department, the two Universities of Calcutta and Dacca, the Board of Intermediate and Secondary Education, Dacca, District and Municipal Boards and Missionary Societies (both Indian and non-Indian). Save for a short period at the end of the year under review the Education Department, with the exception of European Education, which is administered by a Member of His Excellency the Governor's Executive Council, was controlled by a Minister, the Hon'ble Nawab Musharraf Hossain, Khan Bahadur.

2. The Education Department is manned, as stated in previous reports, by members of (*i*) the Indian Educational Service, (*ii*) the Bengal Educational Service, (*iii*) the Subordinate Educational Services, and (*iv*) officers holding special posts and posts not included in any of the services mentioned above.

3. **Indian Educational Service.**—(*i*) *Men's Branch.*—The Men's Branch of the Indian Educational Service nominally included, as in

the previous year, 67 appointments (excluding that of the Director of Public Instruction), of which 3 were in the higher selection grade, 10 in the lower selection grade and 1 on a special rate of pay, and the remaining 53 appointments on the ordinary time-scale of the service; but out of these 67 posts 3 were held in abeyance and no less than 26 were vacant. Of the balance of 38 posts, 18 were held by Europeans and 20 by Indians.

The grant of a special allowance of Rs. 150 per mensem to members of the Bengal Educational Service who have been appointed to be Divisional Inspectors of Schools on their own pay has improved the position in the Inspectorate to some extent, but it is most desirable that the scheme for a new higher Provincial Educational Service, which is to replace the existing Indian Educational Service, should be pushed through as quickly as possible.

(*ii*) *Women's Branch.*—The Women's cadre of the Indian Educational Service included, as in the previous year, 4 appointments, 1 being in the selection grade. Of the 4 posts, 2 were held by officers who are not members of the Indian Educational Service.

4. **Bengal Educational Service.**—(*i*) *Men's Branch.*—There were 221 officers in this branch on 31st March 1929, including 8 holding temporary posts, 5 of which were created during the year under review. On the corresponding date of 1928, the strength of the cadre stood at 219 posts.

(*ii*) *Women's Branch.* This branch of the service included 22 appointments during 1928-29 against 20 of the preceding year.

5. **Special Posts.**—The number of these posts was 43 on 31st March 1929 against 41 of the preceding year. The two additional posts are those of (*i*) the Director of Physical Education, and (*ii*) the Superintendent of the Reformatory and Industrial Schools at Alipore, which were created during the year under review.

6. **Posts outside the classified lists.**—The number of such posts was 14 on 31st March 1929 against 12 of the preceding year, the two additional posts being created to provide for the appointment of (*i*) Principal, Government School of Art, Calcutta, and (*ii*) Professor of Mechanical Engineering, Bengal Engineering College, Sibpur. Of the 14 posts, 6 are permanent, 5 are on contract and the remaining 3 temporary.

7. **Subordinate Educational Service.**—The services below the Bengal Educational Service comprise different kinds of appointments (e.g., teaching, inspecting, ministerial and miscellaneous) and posts outside the classified lists, each consisting of different time-scales of pay. The number of appointments in each branch as they stood on 31st March 1929 against the number of appointments on the same date of the previous year is shown in the subjoined table:—

	On 31st March 1929.	On 31st March 1928.
Teaching	1,379	1,373
Inspecting	320	321
Ministerial	419	415
Miscellaneous	63	59
Posts outside the classified lists ..	78	65

8. **Direction.**—Mr. H. E. Stapleton, Principal, Presidency College, was appointed to act as Director of Public Instruction, Bengal, during the absence, on leave, of Mr. E. F. Oaten and took charge of his officiating appointment on 3rd April 1928. The post of Assistant Director of Public Instruction was filled by Mr. A. Macdonald until 16th November 1928 and then by Mr. R. Wolfenden until the end of the year under report. Khan Bahadur Maulvi Ahsanullah continued to serve as Assistant Director of Public Instruction for Muhammadan Education, and Mr. K. C. Roy as temporary Additional Assistant Director of Public Instruction, Bengal. Mr. J. Buchanan was recruited from England as Director of Physical Education and took over charge on 13th November 1928.

9. Except for there being one less Assistant Sub-Inspector in the Burdwan Division, the strengths of the different branches of the departmental inspecting staff remained the same as it was in the previous year. Reference may be made for details to the table published on page 8 of the 1927-28 Report. There was no change in the duties of the various grades of the inspecting officers. The touring work done by certain classes of inspecting officers in the Rajshahi and Dacca Divisions was below the standard. This was attributed to the shortage of the allotment for travelling allowance. Even in these cases however the majority of recognised schools are reported to have been inspected during the year under review.

10. **Extra-departmental agencies.**—District and Subdivisional Officers continued to render ungrudging assistance to the Department, whenever it was sought for. As Chief Executive Officer in the district, the District Magistrate has a very large voice in the grant of aid to schools and the constitution of their Managing Committees. District and Municipal Boards directly manage a little over four thousand institutions and give aid to a far larger number of schools, mostly primary, in their respective areas. Local Boards and the newly-formed Union Boards have also begun to take considerable interest in education. The helpful support to education by the various Christian Missions noted in previous Reports continues unabated; and in several centres in Bengal—particularly at Hatchapra in the Nadia district—far-reaching experiments in education are in progress under Missionary guidance. The active interest taken by Indian organisations like the Society for the Improvement of Backward Classes, the Nari Siksha Samity and the Uttarpara Hitakari Sava for promoting education among girls and backward communities is also very commendable. Railway authorities give great assistance to the cause of education by maintaining schools at important centres which are open to all children although they are meant chiefly for the sons and daughters of Railway employees.

CHAPTER III.

University and College Education.

Universities.—Mr. (now Sir) J. N. Sarkar, M.A., C.I.E., remained as Vice-Chancellor of Calcutta University up till 7th August 1928 when he was succeeded by Professor W. S. Urquhart, M.A., D.LITT. The

University of Dacca continued to be administered by Professor G. H. Langley, M.A. As already noted, Dr. W. A. Jenkins, during the year under review, prepared at the instance of the Education Department a draft bill providing for the re-organisation of the Calcutta University and this is now under the consideration of Government. The Post-Graduate Arts and Science classes of Calcutta University had 953 (including 14 women) and 274 (including 2 women) students, respectively, on 31st March 1929 as compared with 640 and 310 students studying in these classes on the same date in the preceding year. Besides these, 119 students were on the rolls of the University Commerce classes. The University received from the trustees of the late Dr. H. Stephen's estate a gift of securities worth Rs. 27,700 for the promotion of Post-Graduate studies in Arts. In view of the fact that the existing financial settlement with Government will come to an end on 31st May 1930, the University appointed a Committee to report on the present organisation of the University, the future of the Post-Graduate Department and connected financial problems. The Committee had not concluded its labours by the end of the year under review.

Considerable progress has been made with the building of the new Muslim Hall of Dacca University, referred to in the last annual report. The Dacca University Amending Bill was passed into law, and the chief authority of the University is now the Executive Council. The changes made in the Ordinances and Regulations of the University during the year under review include (*i*) the introduction of a Teachers' Certificate in Practical English and (*ii*) recognition of Commerce as one of the subjects for the ordinary B.A. degree examination. A Mathematical Society has been inaugurated; and two Platoons, as the nucleus of the Dacca University Training Corps, were officially formed in June 1928. Recommendation has been made to Government for financial assistance towards instituting a Readership in French and German and another Readership in Comparative Philology, while steps are also being taken to strengthen and enlarge the scope of the Commerce Department. The Nawab of Dacca has promised a further donation of Rs. 10,000 to be utilised in payment of scholarships and stipends to the students of Muslim Hall: and a new gold medal called the "Chancellor's Medal," to be awarded annually for the best essay written in English on a subject of general interest, was instituted last year by His Excellency the Governor of Bengal. On the 31st March 1929 there were 771 students (including 11 women and 19 research scholars) in the Arts and Science classes of Dacca University as against 729 returned on the corresponding date of the previous year; besides these the Commerce classes of the University had 25 students. The increase in numbers continues to be slower than was anticipated before the starting of the University and further efforts on the part of the University authorities seem desirable to bring home to the students of the eastern part of the Province the facilities that Dacca offers both for taking a degree course in ideal surroundings and as an alternative centre to Calcutta for higher work.

2. **Board of Intermediate and Secondary Education, Dacca.**—The Board has now completed the eighth year of its existence. The total cost of the Board amounted in the year under review to Rs. 54,704, of which Rs. 26,103 was borne by provincial revenues. The number of ordinary Intermediate Colleges under the Board remained unchanged

at 4, viz., the Dacca Intermediate College, the Jagannath Intermediate College, the Imperial Salimullah Intermediate College, and the Eden Intermediate College for Girls. Of these, the first and the fourth continue to be maintained by Government, while the second and third were aided Some retrenchments were effected in the expenditure of Jagannath Intermediate College on the recommendation of a Committee appointed by Government. The financial outlook of Salimullah Intermediate College continued to be unsatisfactory in spite of the Government grant, but it is hoped matters will soon improve. The control of high schools in the town of Dacca will be transferred automatically from the Dacca Board to the Provincial Board of Secondary Education if the Secondary Bill is passed by the Council, but the other question, viz., the future control of the Intermediate Colleges and High Madrasahs that are now under the Dacca Board has not yet been settled.

3. **Arts and Science Colleges.**—On 31st March 1929 there were in Bengal altogether 44 such colleges for men and 4 (including the Intermediate classes of the Eden High School for Girls, Dacca) for women with a total enrolment of 20,822 students. Adoption of the Calcutta University Intermediate course by St. James' College and La Martiniere College, Calcutta, both of which are Secondary Schools for Europeans and Anglo-Indians, is responsible for an increase by 2 in the number of colleges in the year under report; but there was only an increase of 2 in the total number of students. The cost of maintaining colleges fell from Rs. 36,81,956 in 1927-28 to Rs. 36,57,438 in 1928-29. The average annual cost of a college amounted in the year under report to Rs. 76,196 and that of educating a pupil was Rs. 175.

4. **Number of Colleges for Men and their enrolment.**—On the 31st March 1929 there were 44 colleges for men against 42 in the previous year, of which 10 were, as before, maintained by Government; the rest were managed by associations and private governing bodies. Colleges for men registered 20,469 students on 31st March 1929 as compared with 20,514 in the preceding year. Of the total number of students in 1928-29, 17,463 were Hindus, 2,584 were Muhammadans and 422 were of other creeds; the corresponding figures in the preceding year were 17,347, 2,772 and 395, respectively. The fall in the number of Muhammadan students unfortunately continues and is discussed in Chapter X.

5. **Expenditure.**—The total expenditure incurred during the year under review for the upkeep of colleges for men amounted to Rs. 35,10,693 as compared with Rs. 35,35,370 in the preceding year: of this amount Rs. 12,81,350 was borne by provincial revenues and Rs. 3,000 by municipal funds, while Rs. 18,89,652 and Rs. 3,36,691 were provided from fees and other private sources respectively.

6. **Grants to Private Colleges.**—On the recommendation of the Syndicate of Calcutta University, a sum of Rs. 1,29,000 was again distributed by Government in the year under report among non-Government arts colleges in the Presidency, chiefly for the improvement of libraries, laboratories, gymnasia and playing fields. In addition to this amount a sum of Rs. 2,99,762 was disbursed by Government

directly in giving capital and maintenance grants to private colleges. The stiffening of the standard of University examinations, to which reference has been made in previous reports, has been followed by a decline in the number of students in arts colleges and a consequent reduction in fee-income. This has led the authorities of many non-Government colleges to apply to the Department for new and increased grants-in-aid, but the additional funds required for the purpose not being available, the colleges concerned had to meet the situation by curtailment of expenditure or increase of fee rates.

7. **Government Colleges.**—(*i*) *Presidency College.*—On 31st March 1929 the Presidency College, Calcutta, had on its rolls 1,011 students (including 153 in the Post-Graduate classes) as compared with 1,083 on the corresponding date of the previous year. Of the total enrolment, 873 were Hindus, 133 Muhammadans and 5 of other communities. The cost of maintaining the college amounted in the year under review to Rs. 5,34,345, of which Rs. 3,34,562 was borne by provincial revenues. The average annual cost of educating a student worked out at Rs. 514, of which Rs. 322 was met from provincial revenues. Sir J. C. Coyajee acted as Principal from 3rd April 1928 to 24th June 1928 and was succeeded by Mr. R. B. Ramsbotham, Principal, Hooghly College. Three new lecturers, one in Bengali, one in Urdu, and one in Hindi, were appointed last session in consequence of vernacular being made a compulsory subject for the Intermediate and B. A. Examinations. The new building which houses the Astronomical Observatory (as well as certain offices, garages and a few servants' quarters) was completed in the year under report. Acquisition of additional land at a cost of Rs. 3,55,400 has been administratively approved by Government and three of the houses thereon are intended to accommodate a Muhammadan Hostel and the Post-Graduate Hindu Hostel. As reported last year, the increased rates of fees have told seriously upon the quality of students seeking admission, particularly in the M.Sc., Physics and Chemistry classes; and more liberal provision of free and half-free studentships and stipends is desirable to attract a higher type of student. Provision of adequate accommodation for the college menials is an urgent necessity; and Ward No. III of the Eden Hindu Hostel had to be closed as it was pronounced by the Director of Public Health to be insanitary. A whole-time medical officer is badly needed, as the medical protection afforded by the present part-time medical officer is found to be inadequate. Addresses were delivered at the college last session by Sir J. C. Bose and Mr. S. C. Chatterji, the distinguished Bengali novelist. The two Platoons attached to the University Training Corps are reported to be unable to discharge their functions properly owing to the college having no armoury of its own. Two Presidency College students were included last year in His Excellency's Cricket Team.

(*ii*) *Dacca Intermediate College.*—This college had 358 students on 31st March 1929 against 329 returned on the corresponding date of the preceding year. Of these students, 238 were Hindus and 120 Muhammadans. The upkeep of the college cost Rs. 1,45,017, of which Rs. 1,13,556 was borne by provincial revenues. The average annual cost of educating each student amounted in the year under review to Rs. 416, of which Rs. 326 was met from provincial revenues. To make the college tests more effective, weekly examinations have been replaced

by three periodical tests. A gymnasium is badly needed by the college, and further improvements in the Science Department are also reported to be necessary.

(*iii*) *Hooghly College.*—On 31st March 1929, there were 293 students on the rolls of the Hooghly College as against 276 on the same date in the preceding year. Of these students, 275 were Hindus and 18 Muhammadans. The cost of maintaining the college amounted in the year under report to Rs. 1,23,292, of which Rs. 97,480 was provided from provincial revenues. The average annual cost of educating a student worked out at Rs. 440, to which Rs. 348 was contributed by provincial revenues. In connection with the teaching of the vernaculars as required by the University a part-time lecturer in Bengali has been appointed; this arrangement is considered unsatisfactory, as the college needs a whole-time teacher on the subject. Consequent on the transfer of Mr. R. B. Ramsbotham to Presidency College, Mr. K. C. Bhattacharyya was appointed to act as Principal of the college with effect from 22nd June 1928. The Hooghly College Platoon continued to work satisfactorily and 32 members attended the annual camp at Calcutta. An interesting item of work undertaken by the Hooghly College Union was the compilation of a Register of old students of the college. The same building being occupied by the Hooghly College and Madrasah, the college continues to be badly cramped for accommodation.

(*iv*) *Sanskrit College.*—On 31st March 1929 the English Department of the Sanskrit College registered 123 students (all Hindus) as compared with 106 on the corresponding date of the previous year. In the Tol or Oriental Department there were 92 students. The cost of maintaining the College Department amounted in 1928-29 to Rs. 68,570, of which Rs. 61,982 was borne by provincial revenues. The education of each college student cost on an average Rs. 553 in the year under review, of which Rs. 500 was met from provincial revenues. The rate of tuition fee for the College Department is Rs. 6 a month, but no fees are charged in the Tol Department which prepares students for the First, Second and Title Examinations of the Calcutta Sanskrit Association. Classes for physical exercise for two hours a week are compulsory for students of the First Year Class. The Sanskrit College Union and the Magazine are reported to be functioning well. Twenty-two Trust Funds are administered by the Principal, Sanskrit College, for the benefit of students and pandits. Government have accorded administrative approval to the opening of a hostel for the students of the Sanskrit College. On the recommendation of the Sanskrit College Committee Government also gave their approval to the reconstitution of the Calcutta Sanskrit Association, subject to certain modifications.

(*v*) *Krishnagar College.*—This College had 243 students on 31st March 1929 as against 211 on the corresponding date of 1928. Of the students under instruction, 231 were Hindus, 11 Muhammadans and 1 an Indian Christian. The cost of maintaining the college amounted last year to Rs. 1,24,260, of which Rs. 1,00,210 was provided from provincial revenues. The average annual cost of educating each student amounted to Rs. 538, of which Rs. 434 was met from provincial revenues. The students of Krishnagar College having achieved conspicuous success in the University Examinations of the preceding year

the members of the teaching staff were congratulated by the Director of Public Instruction. The college is said to be unable to accept more students every year for want of affiliation in Economics in the B. A. Honours standard and in Civics in the I. A. standard. Mr. Egerton Smith went on leave on 24th April 1928, and Shams-ul-Ulama Mr. Kamaluddin Ahmed, the officiating Principal, joined the college on 7th July 1928; the College was in charge of the Vice-Principal during the intervening period. The staff in Mathematics is reported to require strengthening by the appointment of an additional lecturer. The College Magazine, which is self-supporting, is published thrice a year. The Physical Culture section was completely reorganised last session; but the Students' Aid Fund did not show much activity. At the end of the year the College Endowment Fund amounted to Rs. 75,100.

(*vi*) *Chittagong College.*—On 31st March 1929, 478 students were on the rolls of the college as against 537 on the corresponding date of the previous year. Of these students, 330 were Hindus, 125 were Muhammadans, 22 were Buddhists and 1 an Anglo-Indian. The decrease during the last two years has been due to the necessity for limiting the numbers to the space available in the old buildings and there is urgent need for the provision of funds for improved accommodation. The maintenance charges of the college amounted in the year under review to Rs. 1,24,363, of which Rs. 79,806 was met from provincial revenues. The average annual cost of educating a student worked out at Rs. 249 last session, of which Rs. 160 was borne by provincial revenues. Mr. J. M. Bottomley, Principal of the College, having gone on leave, Professor P. C. Kundu acted as Principal from 30th June 1928 to the end of the year under report. The college gymnasium was improved by the addition of new apparatus, and attendance at the gymnastic classes was compulsory for all students except those who played outdoor games regularly. The college Debating Club, Magazine and Union continued to do good work and the College Benevolent Fund was able to award 32 stipends to poor and meritorious students. To meet the requirements of the University in the matter of teaching the vernaculars, two temporary lecturers (one in Bengali and one in Urdu) were appointed last session.

(*vii*) *Rajshahi College.*—The Rajshahi College reported an enrolment of 775 students on 31st March 1929 as compared with 805 on the corresponding date of the previous year. Of this number, 625 were Hindus and 150 were Muhammadans. The cost of maintaining the college amounted last year to Rs. 1,95,891, of which Rs. 1,19,765 was provided from provincial revenues. The average annual cost of educating a student worked out at Rs. 257, of which Rs. 157 was met from provincial revenues. Mr. T. T. Williams, the permanent Principal of the College, returned from leave after the Pujas and resumed the duties of his post; during his absence Mr. A. K. Mukerji, the officiating Vice-Principal, acted as Principal. To meet the requirements of the University in respect of vernacular teaching a new lecturer in Bengali was appointed in August 1928. Seminars were held in different subjects, especially for Honours students. The residence for the Principal within the college compound was completed and occupied in November 1928; and, as a consequence, far better supervision of the college, as well as of the college hostels, is now possible; other improvements in the college buildings, especially in the Science departments and hostels are still necessary. The appointment of an additional Demonstrator in Physics, although administratively approved, has not yet been made.

A whole-time medical officer (of the grade of Assistant Surgeon) was appointed to look after the health of the college students in general and of the boarders of the different hostels in particular. Lectures on Hygiene and Sanitation were regularly delivered by this new officer. In physical education the usual activities were continued; and an additional boat was provided for the Rowing Section. Social service of different kinds is reported to have been rendered by the students ungrudgingly.

(*viii*) *Islamia College.*—On 31st March 1929 the Islamia College had 308 students (all Muhammadans) on the rolls as against 292 on the corresponding date of 1928. The cost of maintaining the college amounted to Rs. 59,096, of which Rs. 27,959 was met from provincial revenues. The average annual cost of educating each student amounted last year to Rs. 169, of which Rs. 80 was borne by provincial revenues. The College Athletic Club maintains a swimming section besides football, cricket and hockey teams. His Excellency Sir Stanley Jackson, Governor of Bengal, and His Exalted Highness the Nizam of Hyderabad who visited the college last session were pleased to accept honorary life-memberships of the College Union. The college has also started a Duty Fund for helping poor students, and a First Aid Class. The majority of the Islamia College students, who had enlisted in the University Training Corps, joined the Camp during Christmas week. Mr. A. H. Harley, Principal of the College, having gone on leave on 11th February 1929, Mr. J. W. Holme was appointed to act during his absence.

8. **Aided Colleges.**—In 1928-29 there were 20 aided private colleges in the Presidency with 9,826 students on the rolls, as against the same number of colleges with 9,876 students in the previous year. Of the total number of students, 8,286 were Hindus and 1,251 were Muhammadans, the rest being of other communities. The total cost of maintaining aided colleges amounted in the year under review to Rs. 13,23,571 of which Rs. 2,85,776 was provided from provincial revenues. The average annual cost of educating a student in an aided college amounted to Rs. 135, of which Rs. 29 was met from provincial revenues. The Scottish Churches College lost through death two of its most eminent teachers, viz., Dr. Ewan and Pandit K. P. Mukerji; another Professor, Mr. Owens, left the college on being appointed Principal of Bareilly College. The college had 23 women students last year, and looks forward to an increased number in future. The Social Service Union of this college ran a night school: while the College Economics Society inaugurated a system of village surveys, which promises well and is expected to give far-reaching results. Additional class room accommodation is badly needed. The Carmichael College, Rangpur, started a Rovers' Troop; it also has a Co-operative Credit Society and a Co-operative Stores. A new block for 50 students was added last year to the hostel attached to the Victoria College, Comilla; operations are also proceeding for acquisition of additional land for another playing field and extension of the college building. The number of students in the Wesleyan College, Bankura, is reported to have decreased, owing apparently to the opening of colleges at Ranchi and Contai. A gymnasium was erected and some students of the college won diplomas in the St. John's Ambulance Examination. Decreased roll numbers in the Bagerhat College had

the regrettable effect of causing the increment of pay due to the teachers to be suspended. Mr. J. S. Hall, a teacher of St. Xavier's College, was appointed Captain of the Indian team sent to compete at the Olympic sports held at Amsterdam, and the students of this college raised a sum of Rs. 3,295 in aid of famine relief at Balurghat. The capital grant of Rs. 20,000 paid by Government has enabled the authorities of Feni College to complete the upper storey of the main college building: while the Hindu Academy, Daulatpur, has constructed a gymnasium. The Rajendra College, Faridpur, introduced a system of medical examination of students during the session under review. The Victoria College, Narail, is reported to have opened an experimental agricultural farm. The staff and students of St. Paul's College, Calcutta, rendered valuable help to the public by cleaning the streets near the college during the last sweepers' strike in Calcutta. The authorities of Serampore College have decided to suspend the B. Sc. classes for three years, as sufficient numbers of students are not forthcoming for admission to these classes; on the other hand, they contemplate the starting of classes in book-keeping, typing, drawing and mensuration. The college has lost by sudden and premature death the services of Dr. Watkins, Professor of English literature.

9. **Unaided Colleges.**—In the year under review the Presidency had 14 unaided colleges for men attended by 7,099 students; the corresponding figures in the previous year were 12 and 7,034, respectively. The increase of 2 in the number of colleges is due to the inclusion for the first time of the Intermediate departments of St. James' College and La Martinière College, Calcutta. The upkeep of the unaided colleges cost Rs. 7,53,319 last year, the average annual cost of educating a student being Rs. 106. The Bangabasi College has sustained a severe loss by the death of Lord Sinha, who was a trustee of the college; the college also lost Rs. 9,500 by robbery. Classes in shorthand, typewriting, and book-keeping have been opened at the Nara Sinha Dutta College, Howrah, which, the students of the college are allowed to join free of cost. The threatened stoppage of the Municipal grant of Rs. 300 a month in the year under report makes the future of the college, very uncertain, but its numerical strength increased considerably (from 65 to 107). In the Burdwan Raj College the system of weekly examinations has been introduced and an English Seminar has been started. Classes in B. A. Bengali as a second language, B.A. Honours History and B. Com. were opened for the first time in the year under report by the Vidyasagar College. This college has also obtained affiliation in B. Com. (German Composition) with effect from July 1929. The governing body of the Ripon College was forced to dispense with the services of three teachers on account of financial stringency. Owing, however, to the interest of the college authorities in the University Training Corps and the keenness of the students, need has arisen for the formation of a second Platoon. As a result of the Saraswati Puja incident which took place in the previous year, the numerical strength of the City College declined from 1,512 to 852 on 31st March 1929. This decrease told seriously on the financial position of the college, and it was found necessary to dispense with the services of eleven teachers besides effecting other retrenchments. In 1929-30 session, however, it is understood that the numbers have again increased to almost the former total. The college registered 16 women students on the last day of March 1929.

CHAPTER IV.

Secondary Education.

General statistics.—During the year 1928-29 the total number of high and middle schools in Bengal again increased (from 2,884 to 2,960), high schools numbering 1,086 instead of 1,062 and middle schools 1,798 against 1,736; on the other hand, middle vernacular schools declined from 86 to 76. The rate of decrease of middle vernacular schools has been somewhat checked owing to the introduction of English as an optional subject in the school course; but this of course practically converts them into middle English schools. Pupils reading in secondary schools rose from 422,032 to 448,273. Of the total 427,979 were boys and 20,294 girls as compared with 402,636 boys and 19,396 girls in the previous year. The increase for boys was therefore 6·3 per cent. and for girls 4·6 per cent. The total cost of maintaining secondary schools amounted to Rs. 1,43,17,108 as compared with Rs. 1,36,85,653 in the preceding year. Each school cost on an average Rs. 4,836·8, the annual cost per pupil being Rs. 31·9.

SECONDARY EDUCATION OF INDIAN BOYS.

(The Secondary education of Indian girls and of Europeans is dealt with in other chapters.)

2. **Schools and pupils.**—The total number of secondary schools for Indian boys rose during the year under review from 2,747 to 2,825, high schools increased from 998 to 1,020 and middle English schools from 1,682 to 1,742, but middle vernacular schools declined from 67 to 63. Pupils reading in high and middle English schools rose by 14,377 and 10,835, respectively; while middle vernacular schools reported a gain of 107 pupils on 31st March 1929.

3. **Expenditure.**—Secondary schools for Indian boys cost during 1928-29 Rs. 1,20,42,214 as compared with Rs. 1,14,05,252 in the previous year. Of the total direct expenditure Rs. 21,39,382 was borne by public funds and Rs. 99,02,832 by private sources; the corresponding figures in the previous year being Rs. 20,90,989, and Rs. 93,14,263, respectively. High English schools cost Rs. 92,86,489 and Middle English schools Rs. 26,95,239 against Rs. 88,39,911 and Rs. 25,04,203 in the previous year. The cost of maintaining middle vernacular schools decreased from Rs. 61,138 to Rs. 60,486.

4. **Manual instruction.**—Twenty-eight High and six Middle English schools in the Presidency had arrangements for giving manual instruction to their pupils for which special grants were given. Among the subjects taught were carpentry, smithy, weaving, soap-making and basket-making. In addition to these, practical training in agriculture was provided in 1 High and 1 Middle School in Burdwan, 1 High School in Birbhum, 1 High School in Hooghly, 1 High and 1 Middle School in Jessore, 1 High School in the 24-Parganas, 2 High Schools in Chittagong, 1 Middle School in the Chittagong Hill Tracts and 1 High School in Tippera.

It is evident from these facts that a strong movement has begun with the object of getting out of the old literary rut, and thus removing the monotony and humdrum routine of the ordinary school course.

5. **School Final classes (Science side).**—The Science course classes attached to 7 Government High Schools in the Presidency reported an enrolment of 91 pupils on 31st March 1929. Out of 36 candidates who were sent up for the School Final Examination, 24 were declared to have passed.

6. **Grant-in-aid system.**—No additional Government grant was made available during the year under review for aiding secondary schools; the Department was therefore left in the most unsatisfactory position of having to "carry on" and "hope for better days." The present general policy adopted in disbursing the grant-in-aid is set forth below:—

(1) Middle English Schools receive a small proportion of the total grant.

(2) A minimum scale of Rs. 150, and (usually) a minimum roll strength of 100, are insisted on in the case of middle schools.

(3) A minimum scale of Rs. 540 with 11 teachers as well (generally) as a minimum roll number of 150, is required in the case of high schools.

(4) Rates of fees must not fall below a minimum standard.

(5) A Provident Fund scheme is to be introduced.

The chief difficulty that has hitherto been experienced is that a rigid application of the principle of minimum numbers causes schools in educationally backward localities to suffer by the concentration of the grants in areas where roll numbers are larger. Until, however, more money for grants-in-aid to secondary schools is made available, it is difficult to suggest any remedy, unless a portion of each Divisional grant is earmarked for the aiding of schools in backward areas, and the rules are allowed to be somewhat relaxed in such cases.

7. **Experiments in education.**—The Dalton Laboratory plan of study is under experiment in the Torkona High English School (Burdwan) and Hindu School (Calcutta), but in the latter school additional teachers are badly needed for the work. The plan of supervised study introduced previously into the Jalpaiguri Zilla School continued to be in operation during the year under review. The Bogra Zilla School also continued the experiment in the modified Dalton plan mainly on the lines followed at Jalpaiguri. In the Malda Zilla School the Dalton plan does not seem to have proved successful. Dr. West's pamphlet on New Experiments in education was circulated to high schools in the Rajshahi Division, with the result that some 19 schools found it possible to adopt one or more of the suggestions contained in it. The project method is being tried in the Sonthal High School, Bhimpore (Midnapur) and the Ushagram Middle English School (Burdwan) under Missionary management. School authorities in general do not appear to be at all anxious to introduce any new experiment in the existing method of teaching. Absence of necessary equipment, paucity of trained teachers, conservatism of the boys and their guardians, as well as the dominance

of the Matriculation Examination are mainly responsible for the present stereotyped state of things. It must be remembered, too, in this connection that the Dalton Plan and the project method require well-trained and enthusiastic teachers if they are to be really successful.

8. **Provident Fund for teachers in non-pensionable service.**—In most of the High and Middle English schools assisted by the Department, the Provident Fund scheme is reported to have been introduced, but the teachers and managers of schools which can afford to contribute at the rate of one anna per rupee of salary are not eager to participate in the Departmental Provident Fund scheme, the teachers on account of the greater facilities for taking loans under the former system and the managers, it is feared, because of the readiness with which the accumulated fund could formerly be drawn upon in emergencies.

9. **Conclusion.**—The condition of secondary schools generally and of high schools in particular continues to be unsatisfactory. A large number of high schools and most of the middle schools under private management are badly housed, inadequately equipped, and staffed with inefficient and under-paid teachers. With a view to improve the pay and prospects of teachers the fee-rate has been increased, increased grants have been given by the Department, and a Provident Fund has been introduced; but these measures have not gone far enough. The system of almost indiscriminate granting of recognition to high schools which is now in vogue, encourages the starting of weak, struggling and inefficient schools. The establishment of strong centrally situated schools is thereby rendered almost impossible especially in the mufassil, and other results are (as noted in the Hartog Committee Report, published since the close of the year) terribly under-paid teachers and, in consequence of few teachers having any heart in their work, one-third of the insufficiently prepared candidates for Matriculation fail to pass. No real reform is possible unless the question of finance combined with that of control over the growth of mushroom schools is solved. The passing of the Bill which has been drafted by Dr. Jenkins for the creation of a Board to control secondary education in Bengal, and which is now under the consideration of Government, may solve the question of control, but not of finance or of efficiency, and the provision of increased funds is a *sine qua non* for any real progress in secondary education. One useful step forward in secondary education in this Presidency was however taken during the year under review by the publication of the revised syllabus of studies for secondary schools, unifying the East and West Bengal curricula, which is to come into force from January 1931. This has been well received: and the formation, since the conclusion of the year under review of a single Text Book Committee to deal with the books under the new syllabus should lead to much improved text books being available for use in secondary schools in the near future.

10. **Results of the Matriculation Examination.**—Out of 14,334 male candidates who appeared at this examination in March 1929, 9,485 were declared to have passed, as against 14,298 and 9,454, respectively, in the preceding year. The result was practically the same in both years, 2 boys out of every 3 having passed.

CHAPTER V.

Primary Education.

General statistics.—The total number of primary schools of all types for boys and girls rose from 55,603 in 1927-28 to 57,656 in 1928-29, or by 3·7 per cent. (as against 5·3 per cent. in the previous year). Pupils reading in primary schools also increased from 1,868,866 to 1,959,098 in the year under review, indicating a rise of 4·9 per cent. over the figure for the preceding year (as against 7·3 per cent). The total cost of maintaining primary schools amounted in the year under report to Rs. 81,12,862 as compared with Rs. 74,81,356 in the previous year. The average annual cost of running a primary school was Rs. 140·7 (instead of Rs. 134·5), and the cost of educating a pupil in it was Rs. 4·1 (against Rs. 4·0).

PRIMARY EDUCATION OF INDIAN BOYS.

(The Primary education of Indian girls and of Europeans is dealt with in other chapters).

2. **Schools.**—Primary schools for Indian boys increased from 39,990 in 1927-28 to 41,232 in 1928-29; the increase was shared by all the Divisions except Calcutta, as will be seen from the subjoined table:—

Division.	Primary schools for Indian boys (1928-29).					1927-28.

3. **Pupils.**—On 31st March 1929 primary schools for Indian boys registered 1,561,307 pupils (including 70,450 girls) as compared with 1,497,677 pupils (including 65,191 girls) returned on the corresponding date of the preceding year. In addition to this number the primary department of secondary schools had on the same date 204,071 pupils (or nearly 70 per school) against 192,682 in 1927-28. Pupils studying in primary schools and in the primary stage of secondary schools together therefore numbered 1,765,378, as compared with

1,690,359 in the previous year; there was thus a gain of 75,019 pupils in the year under review in the primary stage of instruction. Outwardly this figure is satisfactory but an appalling state of affairs is disclosed on studying the numerical strength of the different classes. There is a loss of about 90 per cent. of the boys by the time the final primary class is reached. Moreover a pupil who has read one or two years in a primary school soon relapses into illiteracy, which implies enormous loss of money, energy and human material. The obvious correctives are better qualified and properly paid teachers, greater co-operation on the part of parents in keeping children at school and the gradual enforcement, as funds permit, of compulsory education.

4. **Relative progress of Hindus and Muhammadans.**—Altogether 704,092 Hindu and 842,794 Muhammadan pupils were registered by primary schools for Indian boys on the 31st March 1929 as compared with 681,418 Hindus and 800,503 Muhammadans reading in these schools on the corresponding date of 1928. The number of Hindu and Muhammadan pupils reading in boys' primary schools thus rose by 22,674 (or 3·3 per cent.) and 42,291 (5·3 per cent.) respectively, during the year under review. Of the total Hindu male population 6·6 per cent. and of the Muhammadan male population 6·5 per cent. were under instruction in boys' primary schools. In the previous year the percentages were, 6·5 and 6·2, respectively. To obtain some idea of the relative actual progress of Hindus and Muhamamdans in primary education, the figures of the number of pupils reading in classes IV and V of boys' schools may be quoted. In these classes on 31st March last 134,036 Hindus and 69,692 Muhammadans were found as compared with 125,578 Hindus and 63,140 Muhammadans on 31st March 1928. The Hindus therefore increased by 6·7 per cent. while the Muhammadans increased by 10·3 per cent.

5. **Expenditure.**—The total cost of maintaining primary schools for Indian boys amounted in the year under review to Rs. 66,42,352 as compared with Rs. 62,36,249 spent for the purpose in 1927-28. Of the total maintenance charges Rs. 33,13,746 or 49·9 per cent. was borne by public funds, and Rs. 33,28,606 or 50·1 per cent. was provided from private sources. In the previous year public and private funds represented 49·46 per cent. and 50·54 per cent, respectively, of the total expenditure incurred for the upkeep of primary schools for Indian boys. The expenditure from public funds was made up of Rs. 21,15,776 from provincial revenues and Rs. 7,26,383 and Rs. 4,71,587 from District and Municipal funds, respectively. The corresponding figures for the previous year were Rs. 20,00,397, Rs. 7,01,928 and Rs. 3,82,011. The expenditure on primary education by the district boards of Tippera, Rajshahi, Dinajpur, Jalpaiguri, Faridpur and Bakarganj is reported to have been less than what it ought to be. The action of these boards seems to indicate the need for greater safeguards against any decrease in the standard of expenditure. The tendency among some local bodies to fritter away their limited resources on other objects than that of primary education also requires to be firmly checked.

6. **Panchayati Union Schools.**—The number of Panchayati Union Schools for boys rose from 678 in 1927-28 to 760 in 1928-29. A sum of Rs. 1,23,252 was sanctioned during the year under report for the maintenance of these schools. Rupees 26,000 was also sanctioned by Government for the construction of 26 additional Panchayati Union

schools for boys in suitable localities at a cost of Rs. 1,000 each. No money however was provided in the Education budget of 1928-29 for raising the pay of the teachers employed in Board Primary schools, although the proposal was administratively approved in 1927. In one report the danger is noted that these schools, being regarded as sirkari schools, do not win the sympathy of the local people and that sometimes rival schools are started in their vicinity. The constitution of local committees, or the transfer of the management of these schools to union boards is suggested to improve the situation.

7. **Primary schools under Mr. Biss's scheme.**—Being more expensive than primary schools of other types, the progress of the scheme continues to be slow. Reluctance of local bodies to undertake financial responsibility in the matter is the chief reason for this slow progress; on the other hand, the rigidity of departmental requirements is said to be another handicap. Administrative approval was accorded in the year under report to an additional grant of Rs. 25,000 for further progress of the scheme and the following new items were sanctioned:—

	Capital grant.	Recurring grant.
	Rs.	Rs.
(*i*) Angaria Union (Burdwan)	4,200	1,428
(*ii*) Grant to Artisan boys' school attached to the Cossipore Gun and Shell Factory (24-Parganas)	..	600
(*iii*) Additional grant to Howrah Municipality for expansion of the free Primary Education scheme	7,800	4,289

The following statement summarises the progress hitherto made:—

8. **Primary schools in Calcutta.**—On 31st March 1929 there were 451 primary schools for boys in Calcutta attended by 33,873 pupils as compared with 456 schoools having 33,817 pupils on the corresponding date of the previous year. Of these pupils, 20,544 were Hindus and 13,183 were Muhammadans: the Hindu school population thus decreased by 373, while that of the Muhammadans increased by 401. Pupils reading in primary schools for boys and in the primary department of secondary schools together numbered 46,012 on 31st March 1929 against 45,197 on the same date of the previous year. The total cost of maintaining the primary schools of Calcutta amounted in the year under report to Rs. 4,96,929 as compared with Rs. 4,13,620 spent for the purpose in the previous year. Of the total expenditure Rs. 3,82,606 was provided from public funds, while Rs. 1,14,323 accrued from private sources. The Corporation Free Primary Schools which are included in the foregoing figure numbered 126 on 31st March 1929 against 117 in the preceding year. As in the previous year, the Corporation maintained, in addition to the Education Officer, five Inspectors and one Inspectress for looking after the schools controlled and aided by them.

9. **Night and Continuation schools**—On 31st March 1929 there were in the Presidency 1,506 night schools with 34,937 pupils as compared with 1,527 schools and 35,871 pupils on the corresponding date of the previous year. To ensure regular attendance and satisfactory progress in night schools the Inspector of Schools, Burdwan Division, suggests that a capitation grant based on progress and attendance may be given.

As in the previous year, continuation schools (which exist in the Presidency Division and Calcutta only) are of two types, the first type, or group I schools which teach the three R's, are meant for boys, and the second, or group II schools which are properly speaking middle schools, are meant for adults and teach Arithmetic and a language besides a technical or commercial subject. On 31st March 1929 there were 188 continuation schools attended by 5,461 pupils showing a fall of 40 schools and of 586 pupils. The Inspector of Schools, Presidency Division, quite rightly points out that to combat illiteracy among adults many more night and continuation schools should be opened. A sum of Rs. 13,500 was sanctioned from provincial revenues in the year under review on account of these schools. It is essential that adequate measures should be taken to spread adult education so as enable the people to take full advantage of the larger share in the control of public affairs which is now open to them. The problem of mass education is a large and difficult one and only the fringes of the problem have been faced as yet.

10. **Teachers and their remuneration.**—On 31st March 1929 there were 59,004 teachers employed in primary schools for Indian boys, of whom 16,038 were trained and 42,966 were untrained. On the average each teacher of a boys' primary school taught only 27 pupils and received a pittance of Rs. 9-6-0 per mensem for his work, the pay ranging from as little as Rs. 5 to Rs. 14 a month. The primary school teacher, who does not at present get a living wage, has, therefore, no alternative but to supplement his slender income in other ways to the almost certain detriment of his work as a teacher. Multiplication of schools has had the undesirable effect of reducing the

stipend payable to teachers of aided primary schools, which constitute four-fifths of the total number of schools: and until funds are available to allow the Department to prescribe that no teacher in a recognised primary school will receive less than Rs. 10 per month and to increase the average pay to Rs. 15 per month little improvement in the standard of teaching is likely to occur.

11. **Curriculum and Examination.**—The present curriculum is considered to be generally suitable, but teaching in some subjects, e.g., Nature Study, is reported to be not up to the mark. This is attributed to want of knowledge of the ordinary teacher, and to absence of expert advice and instruction. What is wanted is a close correlation between life and school work, and the course in Nature study may require to be simplified.

During the year under report 9,585 boys appeared in the Primary and Maktab Final Examinations and of these 4,573 were successful; the corresponding figures in the previous year were 8,328 and 3,387, respectively.

12. **Scholarships.**—A total of 267 Final and 1,112 Preliminary Primary scholarships were awarded in the year under review. This gives only 1 scholarship to every 30 schools and 1 among every 1,132 pupils, and most of the Inspectors of Schools emphasise the imperative need that both the number and value of these scholarships should be increased. Quite apart from the fact that the cost of living and of education has gone up considerably in recent years, a very large number of poor but really meritorious boys must be debarred under present conditions from prosecuting their studies further. In awarding these scholarships the merit and economic condition of the candidates are generally taken into account.

13. **"The Double Shift System."**—This experiment was introduced in March 1928 in 5 primary schools in Bogra and in 3 schools in Rangpur. The object of the scheme is to see whether in the interests both of economy and efficiency, teaching in primary schools may be conducted in two shifts of 3 hours each—one in the morning and one in the afternoon. Both shifts may be utilised for the education of boys or one shift for boys and the other for girls according to local needs. The cost of the scheme is to be met on a half-and-half basis by Government and the District Boards concerned; but no additional subsidy could be secured from Government during the year under review. As the result however of introducing the scheme, the numerical strength of the 8 schools is reported to have risen from 670 to 1,325. If the experiment proves successful, and can be widely extended it will go a great way towards solving the problem of financing the scheme of universal free and compulsory primary education in Bengal.

14. **The Bengal (Rural) Primary Education Bill.**—The main provisions of this Bill were enumerated in the last annual report on Public Instruction. The Primary Education Bill, after being introduced in the Bengal Legislative Council, was referred to a Select Committee of the Council which submitted its report shortly before the close of the year under review. During the rainy season of 1928 much propaganda work was done in rural areas in connection with the Bill by the departmental Sub-Inspectors, who explained the provisions of the Bill to the villagers and distributed the circulars and

leaflets on "the Promotion of Primary Education" issued by the Department. The Bill has undoubtedly met with cordial approval from the cultivating class and there was practically no indication from any quarter that the provision of funds by means of an additional cess would be regarded as a hardship.

The urgency of dealing with the problem of Primary education may be understood from the fact that, out of about 7 million children who might be reading in the 5 primary classes of Bengal schools only about *one-third* are attending school at all, while of these only 215,000, or less than *one-thirtieth* are in classes IV and V. Only the last-named children can be said to be deriving permanent benefit from their attendance at school, so that the present wastage between Class I and the top two classes of the Primary stages is no less than 9 children out of every 10.

15. **School Post offices.**—The number of teachers who worked as Post Masters during the year under review was 471 against 536 in the preceding year. The remuneration given by the Postal Department varied as before from Rs. 6 to Rs. 16 a month. This additional remuneration gives a certain amount of relief to the small number of poorly-paid teachers who were able to secure these posts. A much wider extension of the system is desirable.

CHAPTER VI.

The training of teachers of Indian Schools.

A—The Training of Men Teachers.

Training Colleges (general).—The two Government training colleges at Calcutta and Dacca, which train teachers for secondary schools, had a total enrolment of 135 pupils on 31st March 1929, as compared with 133 on the corresponding date of 1928. Teachers of private schools and graduates intending to enter the teaching profession constitute the major portion of the students under training in both colleges. Only 1 out of the 135 students read the L.T. course last year. The problem of providing increased facilities for the training of teachers for primary and secondary schools was carefully examined by a small Conference which met on 20th and 21st July 1928 at the office of the Director. The recommendations made by the Conference formed the basis of the proposals for speeding up the training of primary school teachers that were subsequently embodied in the note submitted to the Legislative Council in connection with the Primary Bill; and other important proposals put forward at the Conference for increasing the number of trained teachers in secondary schools by means of short courses are under consideration by the Department. The earlier scheme of short-course training for teachers with special reference to spoken and idiomatic English is awaiting the provision of funds; but shortly after the close of the period under review, a vacation course in the teaching of English was held at Dacca.

2. **David Hare Training College, Calcutta.**—On 31st March 1929, the David Hare Training College had on its rolls 59 students, all in

the B.T. Class. An L.T. Class again could not be formed during the year under review owing to dearth of applicants. The cost of maintaining the college amounted to Rs. 63,578. Out of the 59 students who sat for the B.T. Examination, 55 passed. Babu Chinta Haran Chakrabarty, a senior Professor of the College, retired from service in April 1928, after many years of useful work. The special tutorial classes organised in English, History and Civics, Nature Study, Science, Mathematics and Geography are reported to have been very popular. Special facilities were provided for students in black-board drawing and handwriting, prizes being awarded to those who showed the greatest improvement. Some students attended a course of lectures in Civics and First Aid organised by the Calcutta Young Men's Christian Association, and a few others qualified as Scout Masters. College work was supplemented by visits to important institutions such as the Medical College, Indian Museum, Deaf and Dumb School, La Martinière College, the Mint and the Bengal Engineering College. Subjects outside the prescribed curriculum dealt with by the college included lectures on the League of Nations, Hygiene and sanitation, New Educational experiments in India, and educational treatment of backward children and of delinquents. Examination of the students by the Hostel Medical Officer showed that out of 59 students only 11 were in perfect health: but it is reported that every student took part in one at least of the various games for which facilities were provided. The College was visited by Sir A. Selby Bigge, a member of the Hartog Committee.

3. **Teachers' Training College, Dacca.**—The Teachers' Training College, Dacca, reported an enrolment on 31st March 1929 of 76 students, 75 in the B.T. and 1 in the L.T. Class. Of these students, 18 came from Assam, 1 from Indore, 2 from Hyderabad (Deccan) and the rest from the three eastern Divisions of Bengal. The cost of maintaining the college amounted last year to Rs. 91,014. The college passed 71 out of the 75 students, who appeared in the B.T. Examination; the only student of the year, who read the L.T. course, also obtained his diploma. For the selection of students an Admission Test was introduced which all teachers of non-Government schools and outsiders were required to pass. Dr. West hopes that this Test will secure students of better calibre for the college. Researches were conducted in the teaching of English speech, based on a previously acquired reading vocabulary. Six papers were also contributed by the staff and students to the Indian Science Congress of 1929 held at Madras. Physical drill is compulsory for all students; a small class is also held for showing the teachers under training how to conduct drill classes. Outdoor games were played by most of the students under training.

4. **State Scholarships.**—Of the two State Scholarships available for the professional training of graduate teachers of secondary schools in Bengal, one was awarded as usual to a Moslem and one to a non-Moslem teacher to enable them to undergo a course of training for two years in Great Britain.

5. **Normal or First-grade Training Schools.**—During the year under review there were in the Presidency, as before, 6 normal or first-grade training schools, of which 5 (one in each Division) were directly managed by Government and 1 was aided by the Department. These schools had on their rolls 463 students on 31st March 1929 as

against 452 on the corresponding date of 1928. The cost of maintaining the first-grade training schools was practically the same as in the preceding year. Of the total direct expenditure Rs. 1,27,313 came from provincial revenues. These training schools passed 122 students out of 177 who sat for the Final Examination. The question of unification of the courses obtaining in the two parts of the Presidency is still under consideration. It is stated in Divisional reports that if the value of the stipend payable in first-grade training schools, which is Rs. 10 a month, were raised, the schools would attract more Matriculates, in which event the efficiency of Normal Schools would improve considerably.

6. **Guru-training and Muallim-training schools.**—On 31st March 1929 the Presidency had 87 Guru and Muallim Training Schools with 2,001 pupils in them, as compared with 89 schools attended by 1,868 students on the corresponding date of the preceding year. The abolition of some old-type guru-training schools consequent on the establishment of larger guru-training schools of the improved type accounts for the decreased number of schools in 1928-29. Of the 87 schools, 81 were managed by Government, 1 by the Corporation of Calcutta, and 5 by Missionary Societies. The total cost of these schools was Rs. 3,22,244, of which Rs. 2,98,301 was borne by provincial revenues, as compared with Rs. 3,11,867 and Rs. 2,92,193, respectively, in the previous year. Out of 1,588 students who sat for the Final Examination from these schools in the year under report 1,149 (or only 72 per cent.) were declared to have passed. The Corporation Training School deals with the teachers of free primary schools maintained by that body. The primary school teachers at present admitted to guru-training schools are men of very inferior qualifications, and this state of things, says the Inspector of Schools, Burdwan Division, is bound to continue till the public examination at the end of the Middle School course is revived. The Inspector of Schools, Rajshahi Division, is of opinion that the course should be for 2 years instead of 1, and that in selecting candidates the health, physique, caste, and domicile of the candidates should also receive due consideration. The primary schools attached to guru-training schools, where practice teaching is carried on, are not generally well-attended, although teaching of English has been introduced in them and free tuition is provided for the pupils of these practising schools. Some Inspectors of Schools consider that it would be advantageous if additional stipends could be paid to schools where practice teaching is conducted. Agriculture has been prescribed as an optional subject for guru-training schools in the Rajshahi Division, and some of them have also introduced Cubbing. The latter, if successful, may enable Scout games and Scout ideals to be introduced into some of the primary schools of the Division.

B—The training of women teachers.

7. **Training Colleges for Women.**—A modified scheme for the establishment of a Women's Training College under departmental control was submitted to Government during the year under report, and is still under consideration. Meanwhile, women teachers of secondary schools continue to be trained at the Training Departments attached to the Diocesan College and Loreto House, Calcutta, of which the former is aided by Government. On 31st March 1929 the Diocesan College Training Class had 13 students on its rolls (all in the B.T.

Class). The upkeep of the Training Department cost Rs. 8,108 during the year under review, of which Rs. 7,200 was met from provincial revenues. It passed 12 out of 13 students in the B.T. Examination of 1929. The authorities complain that they are not able at present to do any experimental work for fear of interfering with the routine of the practising school. In the Loreto Training Class there were 9 pupils (B.T. 3 and L.T. 6) on 31st March 1929. It passed 2 students out of 3 in the B.T. and 6 out of 6 in the L.T. Examination held in 1929.

8. **Training Schools for Women.**—The number of institutions which had facilities for training women teachers employed in primary schools and the lower classes of secondary schools remained unchanged at 10, of which 3 (2 in Calcutta and 1 in Dacca) were, as before, directly managed by Government and 7 controlled by Christian and Brahmo Missions. There were altogether 199 students under training in these schools as compared with 213 in the preceding year. The maintenance charges amounted during the year under review to Rs. 91,276 against Rs. 92,963 in the previous year; of the total cost Rs. 75,948 (against Rs. 71,690) was borne by provincial revenues. Each of the Hindu and Moslem Women's training schools, Calcutta, requires to be provided with a house of its own. The Kalimpong class had 12 hill girls under training; it is urgently in need of additional staff and stipends. The Dacca Training School is reported to be suffering from lack of adequate practising facilities. The C. E. Z. Mission Training School, Krishnagar, prepares women for the Junior Teachership Examination only.

A set of revised rules for the Bengal Vernacular Teachership Examination for women was issued in July 1928. These came into operation in January 1929. Under the revised rules no candidate will be permitted in future to present herself for the Government Training Certificate, unless she has worked a full year for the Senior Certificate, and two years for the Junior Certificate in one of the recognised Training Schools. The results of the Training School Examinations for 1928-29 were as follows:—

Examinations.	Candidates.	
	Presented.	Passed.

CHAPTER VII.

Professional and Technical Education.

1. **Law Colleges and Classes.**— Facilities for the study of Law continued to be provided by the University Law College, Calcutta, and the Law Departments of the Ripon College and the University of Dacca. The three institutions had altogether 3,035 students on their rolls on 31st March 1929, as compared with 3,122 on the same date of the preceding year. Of these students, 2,392 were Hindus and 611 Muhammadans and the rest belonged to other communities. The upkeep of the Law Departments of Calcutta University and the Ripon

College cost during the year under report Rs. 2,80,510 against Rs. 2,78,694 in the previous year. The cost of maintaining the Law Classes attached to Dacca University, which has not been shown separately in the University returns, is included in the general tables under the head "Universities." At the Final B.L. Examination held in the year under review the three institutions passed 862 students out of 2,076 candidates who appeared, as compared with 591 in the previous year, the percentage of passes being 41·5 against 45·5.

2. **Medical Colleges and Schools.**—There were, as before, three institutions in Bengal with provision for higher medical studies, viz., the Calcutta Medical College, the Carmichael Medical College, Belgachia, and the School of Tropical Medicine and Hygiene. These institutions together had 1,399 students (including 14 women) on 31st March 1929 against 1,481 pupils (with 17 women) on the corresponding date of 1928. Of the total number of students under instruction, 1,217 were Hindus, 132 were Muhammadans, 47 were Christians and 3 were of other creeds. The total cost of maintaining the three institutions amounted in the year under report to Rs. 9,07,227 as compared with Rs. 10,01,686 in the previous year. Of the total expenditure Rs. 6,28,093 (against Rs. 7,39,368) was met from provincial revenues: the decreased Government expenditure is said to be due chiefly to vacancies on the staff of the School of Tropical Medicine and Hygiene. Out of 759 students who appeared in the final examination from these colleges in the year under review, 270 were declared to have passed. Valuable researches are being conducted by the School of Tropical Medicine in Kala-azar, Leprosy, Diabetes and Hookworm diseases.

On 31st March 1929 the Presidency had 10 medical schools with 2,429 pupils (including 20 women) on their rolls against 11 schools attended by 2,111 students (of whom 22 were women) in the preceding year. The upkeep of these schools cost in the year under report Rs. 4,47,932 against Rs. 3,68,987 in 1927-28, of which Rs. 2,48,645 (against Rs. 2,02,141) was borne by provincial revenues. The medical schools presented 557 examinees at the final examination held during the year under review, and of these 313 were successful. There is a proposal to start a medical school at Chinsurah, as soon as funds for the purpose are forthcoming.

3. **Veterinary College, Belgachia.**—On 31st March 1929 the Veterinary College, Belgachia, had an enrolment of 168 pupils, against 144 students under instruction on the corresponding date of 1928. Of these students, 115 were Hindus, 42 Muhammadans and 11 of other communities. The cost of maintaining the college amounted in the year under report to Rs. 2,13,026 against Rs. 2,17,821 in 1927-28, which was met entirely from provincial revenues. Of the 166 students who sat for the annual examination in 1928-29, 111 were successful.

4. **Bengal Engineering College.**—The Bengal Engineering College, Sibpur, reported on 31st March 1929 an enrolment of 277 pupils (viz., 146 in the Civil Engineering Classes, 82 in the Mechanical and Electrical Engineering Classes and 49 in the Industrial Classes) against 268 on the corresponding date of the previous year. Of these students, 241 were Hindus, 23 Muhammadans, 11 Europeans and Anglo-Indians, 1 was an Indian Christian and 1 a Buddhist. The upkeep of the college cost in the year under report Rs. 3,73,888, of which Rs. 3,31,408 was met from provincial revenues, the corresponding figures in the previous year being Rs. 3,65,100 and Rs. 3,25,444,

respectively. The college workshops turned out work valued at Rs. 16,500 approximately in the year under review—a very appreciable increase over the Rs. 6,416 of the previous year. The success of the college in the various examinations held in 1928-29 is indicated below:—

Owing to a change in the date of examination the annual results of the Associateship in Mechanical Engineering and for the Diploma in Mechanical and Electrical Engineering, were included in last year's report.

Mr. T. H. Richardson, Principal of the Bengal Engineering College, retired from service on 16th November 1928 and Mr. A. Macdonald was appointed to the vacancy. Mr. Richardson, during his long service in the college, devoted himself to the best interests of the college and succeeded in maintaining a high standard of work and of conduct among his students. Mr. C. V. Miller, B.SC. (DURHAM), joined the college on 20th February 1929 as Professor of Civil Engineering. Mr. R. Wolfenden, Professor of Mechanical Engineering, on being appointed Assistant Director of Public Instruction, Bengal, was succeeded by Mr. A. Watson in the Sibpur post. The Mining Classes of the college were finally closed down on 31st March 1929. For teaching Geology to the Civil Engineering students, which was previously done by the Professor of Mining, Government have appointed Mr. Clegg of the Geological Survey of India as part-time lecturer. Rai Amar Nath Das Bahadur, late officiating Chief Engineer, Irrigation Department, Bengal, was appointed visiting Lecturer on Irrigation for the session 1928-29. The guaranteed post in the Indian Service of Engineers was awarded to Babu Khitish Chandra Chakravarti, B.SC., B.E. This is the last appointment under the old arrangement whereby one post in the senior branches of the Engineering Service (Railways and Public Works Department respectively) was guaranteed in alternate years to a student of this college. All such appointments to be made in India will henceforth be open to competitive examination. The Principal considers that the work done with the students of Mechanical Engineering in lecture room, laboratory and drawing hall is that of a degree standard and merits this distinction. It is also desirable, if possible, to develop the Electrical Engineering course up to the same standard. The annual mining camp was held at the Lodna Colliery, Jharia, where every help was given to facilitate the survey work of the students. The senior students also visited the Bengal Chemical and Pharmaceutical Works, the Kulti Iron Works and Bengal Fire Brick Co.'s brick works. The present syllabuses in Chemistry and Metallurgy are being revised; some revision of the Mathematics syllabus also is considered necessary. All the members of the Bengal Engineering College Auxiliary Force qualified in attendance at parades and all were present in camp at Jamalpur in January 1929. There were also two Bengal Engineering College platoons attached to the University Training Corps. The abolition of the Mining Classes necessitated a redistribution of the scholarships and stipends reserved for Moslem students, and this was sanctioned by Government in September 1928.

5. **Ahsanullah School of Engineering, Dacca.**—The Ahsanullah School of Engineering had 417 pupils (138 in the Upper Subordinate, 214 in the Lower Subordinate and 65 in the Artisan Classes) on its rolls on 31st March 1929 against 468 in the previous year. Classified according to race or creed there were 351 Hindus, 1 Indian Christian and 65 Muhammadans. The cost of maintaining the school amounted in the year under report to Rs. 1,38,517, of which Rs. 1,13,047 was borne by provincial revenues, the corresponding totals in the preceding year being Rs. 1,24,955 and Rs. 95,418, respectively. The value of the work done in the school workshop was Rs. 6,349 in the year under report against Rs. 11,448 in the previous year. The Survey Training Class for pleaders was again held for six weeks under canvas at Gandaria; 10 out of 26 candidates who appeared in the Survey Examination were successful. The school passed 35 out of 47 students in the Overseer Examination, and 68 out of 127 examinees in the Sub-Overseer Examination held during the year under review. Eleven artisan students also completed their training last session. The Nawab of Dacca has kindly consented to pay a sum of Rs. 300 annually for the next three years to the student standing first in the Overseer Examination. The construction of the new hostel for 204 students is expected to be completed by the end of the current year: and the proposal to make two bungalows suitable for subsidiary hostels at a cost of Rs. 14,917 has received administrative approval by Government. The previous arrangement, whereby 3 passed Overseer students of the Ahsanullah School of Engineering, Dacca, after undergoing practical training for one year in the school workshop and one year under the Public Works Department, used to appear at a competitive Practical Training Examination held at Purulia, was replaced after the close of the year under review by a new scheme which contemplates the holding in Bengal of a Practical Examination of 12 passed Overseers after they have undergone practical training for a period of about 18 months in the Public Works or Public Health Department. The practical survey training of Overseer and Sub-Overseer students was conducted, as usual, for about five weeks, both locally and in the mufassal, the mufassal survey camp being held under canvas at Mainamati. Some tents and survey instruments were purchased last year at a cost of about Rs. 2,100. The School Employment Bureau continued to work well: and in sports, the school maintained its former good record. The senior students were given the opportunity of visiting the local Water Works, Sewerage Works, University Pumping Station, Railway Workshops, Electric Company's Power House and the Dhakeswari Cotton Mills.

6. **Bengal Survey School.**—In the Survey School, Mainamati—now renamed the Bengal Survey School—which is under the administrative control of the Director of Industries, there were 90 students (including 1 Kanungoe) on 31st March 1929, as compared with 80 on the corresponding date of the preceding year. Of these students, 79 were Hindus, 8 Muhammadans and 3 Buddhists. The charges for maintaining the school amounted to Rs. 19,748, of which Rs. 14,802 was borne by provincial revenues, the corresponding figures in 1927-28 being Rs. 16,974 and Rs. 12,123, respectively. Out of 34 students who sat for the Final Survey Examination in the year under review 30 were successful. Forty-two out of 45 students passed the Amin Examination last year. The number of students, who joined the special training class in mine-surveying last session, was 3. In

the year under report, according to a revised scheme of training, the second-year students were in camp from December 1928 to February 1929, and carried out some traversing and relaying work offered by the Collectors of Mymensingh, Dacca, Tippera, Faridpur and Bakarganj.

7. **Art Schools.**—The Government School of Art, Calcutta, is the chief of the five Art Schools which exist in Bengal. It had 373 pupils on the rolls on 31st March 1929 against 412 returned on the same date in the preceding year. Of these students, 351 were Hindus, 10 Muhammadans, 7 Christians and the rest of other creeds. The cost of maintaining the school amounted in the year under report to Rs. 59,161, of which Rs. 40,626 was met from provincial revenues; the corresponding figures in the preceding year being Rs. 57,416 and Rs. 38,570, respectively. As in previous years, considerable support in the shape of scholarships and stipends was extended to students of the Government School of Art by District and Local Boards and Indian States. Four members were added to the Governing Body of the School, making a total of 12. The Indian Drawing and Painting Department has been revived at the School, and revised proposals in connection with the retention of the Commercial Art Section of the Government School of Art are now before Government. An Exhibition of drawings, paintings and engravings by teachers, students and friends of the school was held in December 1928. The Art Galleries are also used regularly by students of other Art Schools, as well as by local artisans and distinguished visitors from other parts of India.

8. **Commercial Schools.**—As in previous years, the Government Commercial Institute, Calcutta, continued to be the most important among the 32 Commercial Schools existing in the Presidency during the year under report. There were 278 students in the institution on 31st March 1929 (against 253 on the same date of 1928), of whom 261 were Hindus, 7 Muhammadans and 4 of other communities. The maintenance charges of the institution amounted in the year under review to Rs. 66,255, of which Rs. 46,798 was borne by provincial revenues, the corresponding figures in the previous year being Rs. 59,800 and Rs. 41,796, respectively. Twenty-eight students appeared at the Final Commercial Course Examination; of these however only 12 passed. In the Special Commercial Course Examination, 144 students passed out of 284 candidates (including private students and those of affiliated schools) who sat for it. The institution removed, during the year under report, to new premises in Hastings Street, where larger accommodation is available. As before, the Evening Classes attracted a larger number of students than the Day Classes. The reorganisation of the teaching staff of the school has been sanctioned by Government since the close of the year. In 1928-29 sanction was accorded to the permanent affiliation of 2 schools in Calcutta to the Government Commercial Institute, as well as the temporary affiliation of 3 others, of which 2 were in Eastern Bengal.

9. **Weaving Schools.**—The Weaving Schools in the Province, which are controlled by the Director of Industries, numbered 55 on 31st March 1929, against a total of 42 in the previous year. The chief of these, viz., the Weaving Institute, Serampore, reported a total enrolment of 86 (including 32 women) pupils as compared with the same total number of pupils (but 22 women) in the previous year. Of the students 60 were Hindus, 11 Muhammadans and 15 Indian

Christians. The upkeep of the institute cost Rs. 53,406 during the year under report, of which Rs. 52,834 was met from provincial revenues; the corresponding figures for the preceding year were Rs. 71,589 and Rs. 71,589, respectively. Of the 6 students who sat for the Final Diploma Examination 5 passed. Twenty-six artisan students and 8 pupils of the Female Industrial Classes also completed their training last session against 11 and 2, respectively, in the previous year. In the City and Guilds Examinations held in April 1928, 13 students from this centre were successful. The construction of the permanent school building is nearing completion: that of the Workshop has been also sanctioned by Government. Mr. E. Hoogewerf, who had been Principal of the Institute since 1909, went on leave on 3rd February 1929, preparatory to retirement. In the beginning of the year under report the administration (with staff) of the outlying Weaving Schools and Demonstration Parties was transferred from the control of the Principal to that of the Director of Industries, a step which has enabled the Principal of the Weaving Institute to pay undivided attention to the institute proper. The constitution of a Managing Committee of 14 members with the District Magistrate as President was sanctioned for the institute towards the close of the period under review.

10. **Music Schools.**—On 31st March 1929, 9 music schools in Bengal (of which 4 were aided) were reported, as against 8 schools in the previous year. The questions of the introduction of the teaching of music in secondary schools in the Presidency and the establishment of training centres for music teachers are being dealt with by a conference of experts.

11. **Agricultural Education.**—As in the previous year, a further group of 15 teachers, 6 from High and 9 from Middle English Schools under private management in the Presidency, were deputed to the Dacca Agricultural Farm for a course of 2 years' training. Details of the secondary schools that have opened agricultural classes have already been given in Chapter IV of this Report. The number of agricultural schools proper remained unchanged during the year at 3, viz., Chinsura (Hooghly), Hatchapra (Nadia) and Manipur (Dacca); of these the first, though aided by the District Boards of Hooghly and Howrah and the Corporation of Calcutta, seems to be ceasing to function, as the number of students decreased from 24 to 14: the other two schools, with a total of 113 students, are doing good work.

12. **Other Technical Centres.**—Among technical and industrial schools the following may be specially mentioned:—

(*i*) The Calcutta Technical School increased its enrolment from 129 to 141. The school is aided by Government and cost Rs. 81,038 (including Rs. 52,600, from provincial revenues). A class for "Electric Wiremen" was started with 15 students in September 1928, and a scheme for courses of instruction to apprentices in "Plumbing and Sanitary Fitting" was sanctioned by Government after the close of the period under review. The school authorities have placed some rooms at the disposal of the Director of Public Health for conducting training classes for Sanitary Inspectors.

(*ii*) The Kanchrapara Technical School had 48 apprentices under training on 31st March 1929, and 14 apprentices completed their apprenticeship during the year. In the Board of Control's Annual

Examination held in December 1928, 51 apprentices passed out of 58 who were sent up. The Anglo-Indian hostel attached to the school was extended so as to accommodate 27 students.

(*iii*) The Bengal Nagpur Railway Apprentices' Night School at Kharagpur registered 40 pupils. The school teaches machine construction, mechanical drawing, mechanics and practical Mathematics. In the Board of Control's Annual Examination held in December 1928, 12 out of 15 candidates passed in different subjects.

13. Degrees in Commerce are awarded by the Universities of Calcutta and Dacca, while Commerce and Dyeing are included as special subjects in the Intermediate Examination of the Dacca Board. Calcutta University has also an I. Com. Examination. Of the 123 candidates who appeared for the B. Com., 61 passed, while out of the 103 students who took I. Com. or I. A. with Commerce 49 were successful. The small number (20 out of 65) who have passed from the Jagannath Intermediate College, Dacca, in the I. Sc. with Dyeing during the last two years, seems to indicate that better teaching and more care in sending up candidates is desirable.

CHAPTER VIII.

Education of Indian girls and women.

Institutions and pupils.—The year 1928-29 closed with 16,798 institutions of all grades and types for Indian girls with a total enrolment of 423,005 pupils; schools thus showing an increase of 834 and the number of pupils increasing by 28,980. Girls in girls' schools (after excluding 5,474 boys reading in them), together with those reading in boys' schools, numbered 491,000 on 31st March 1929. Of this number 218,877 were Hindus and 262,804 were Muhammadans and the rest were of other creeds.

2. **Controlling agency.**—The women inspecting staff of the Department included, as in previous years, 2 Inspectresses and 12 Assistant Inspectresses of Schools, divided equally between the two parts of the Presidency.

3. **Collegiate Education.**—During the year 1928-29 the number of Arts Colleges for women remained unaltered at 4. Of these two, viz., the Bethune College, Calcutta, and the Intermediate Department of the Eden High School, Dacca, are maintained by Government, one, the Diocesan College, is aided, and one, Loreto House, is unaided.

On 31st March 1929 the Bethune College had 170 students on its rolls, against 141 returned on the same date of the previous year. The college cost Rs. 92,957, of which Rs. 81,365 was provided from provincial revenues; and the average annual cost of educating a student amounted to Rs. 540 (against Rs. 685), of which Rs. 473 was borne by provincial revenues. The college presented 23 students at the B. A. and 23 and 11 students, respectively, at the I. A. and I. Sc. Examinations; in the first Examination 19, and in the other two 18 and 10 students, were successful. Physical training under a well-qualified Physical Instructress has been introduced, and a drill-shed was

completed and brought into use after the close of the year. Classes in music, both vocal and instrumental, are held regularly under the auspices of the Sangit Sangha. The college suffered a great loss from the departure of the Principal, Miss G. M. Wright, who retired on proportionate pension. She was succeeded by Mrs. Rajkumari Das, Principal of the Eden High School for Girls, Dacca.

The Eden Intermediate College, Dacca, had 49 students on 31st March 1929 against 38 in the preceding year. The cost of maintaining the Intermediate classes amounted during the year under review to Rs. 18,536, of which Rs. 16,023 was borne by provincial revenues. Owing to the increase in numbers the cost per head fell from Rs. 445 to Rs. 378. Twenty-one candidates appeared in the Intermediate Examination in Arts conducted by the Board of Intermediate and Secondary Education; of these 20 were successful. It is gratifying to note that one of the students of the college not only headed the list of successful candidates but also occupied the first place in all the subjects she offered for examination. Singing is taught to all the classes in the college. The Diocesan College and Loreto House had 78 and 56 students, respectively, on the rolls on 31st March 1929 against 74 and 53, respectively, in the previous year. The two colleges cost Rs. 24,702 and Rs. 10,550, respectively; the cost per pupil being Rs. 304 and Rs. 211. The low cost per head is due to the fact that as both of these institutions are under Missionary auspices, the cost of the staff is less than in Government colleges. The Diocesan College passed 9 students out of 11 in the B. A. and 19 out of 20 in the I. A. Examination. Loreto House presented 11 candidates for the B. A. and 14 candidates for the I. A. Examination, and it is noteworthy that all of them came out successful. Lectures were given at the Diocesan College on interesting subjects outside the curriculum, such as Astronomy, Food, Prevention of Tuberculosis and various Geographical topics.

4. **Secondary Education**—(*i*) *High Schools.*—The number of High English schools for girls rose during the year from 22 to 24, the increase in number being due to the starting of a high school at Pabna and the raising in status of the Coronation Middle English School for girls at Khulna. Of the 24 high schools, 5 were managed by Government, 18 were aided and 1 unaided. The total number of girls reading in high schools increased from 6,130 to 6,766. Domestic Science subjects, such as hygiene, cooking and needle-work are growing in favour in girls' schools and a more rapid development in this direction may be expected in the near future, with proper encouragement and guidance. Owing, probably, to the fostering care of Miss Carswell, of the Young Women's Christian Association, who acted until the close of the year under review as Physical Directress to the Department, many secondary girls' schools are now paying serious attention to the need for physical culture and organised games for their pupils, and arrangements for medical inspection are also made in some of them. At the Matriculation Examination of 1929, 283 candidates appeared from girls' high schools in the Province, of whom 211 were successful, against a total of 189 in the previous year.

(*ii*) *Middle Schools.*—On 31st March 1929 there were 52 Middle English Schools for Indian girls, i.e., an increase of 1 school. Girls reading in Middle English Schools numbered 7,437 against 6,776 on 31st March 1928. Middle Vernacular Schools declined in number from

19 to 13, and in pupils from 1,857 to 1,401. Proposals are under discussion for provincialising the Sukhawat Memorial Girls' School and raising it to the status of a high school. The Morgan Girls' School at Narainganj and the Middle School at Midnapore were under Municipal management.

5. **Primary Education.**—On 31st March 1929 primary schools for Indian girls numbered 16,406 as compared with 15,597 in the previous year. Primary schools registered 462,627 girls on 31st March 1929 against 431,023 in the previous year. The actual progress of primary education among girls may be gathered from the fact that the number of girl pupils in classes V and IV have increased from 6,340 in 1926-27 to 10,146 in 1927-28, and 11,700 in 1928-29. The increase is satisfactory so far as it goes, but the amount of leeway to be made up in female primary education is shown when it is further calculated that the 1928-29 figure only represents 2·5 per cent. of the total number of girls in primary schools for Indian girls, as compared with 13·2 per cent., the proportion of boys reading in classes V and IV to the total number of boy pupils in primary schools for Indian boys.

The classification of primary schools for Indian girls in Bengal has been dealt with in previous reports. The number of Panchayati Union Schools remained unchanged at 163, owing to more money not being available for starting additional schools. The free primary schools for girls managed by the Corporation of Calcutta increased from 66 to 73, and the number of girls reading in them from 7,436 to 8,770.

The work of the Nari Siksha Samiti and of the Society for the Improvement of Backward Classes deserves special mention in connection with the expansion of primary education. They have started schools in localities where the lower classes of society, who are generally illiterate, constitute the bulk of the population. The number of their schools for girls was 128, with 4,313 pupils on 31st March 1929, against a total of 116 schools and 4,731 pupils on the same date of the previous year.

6. **Special Schools.**—In 1928-29 there were 44 technical, industrial and other special schools for Indian girls with 2,362 girls reading in them. The number of such schools is tending to decrease, but the number of girls reading in them increased during the year under review by 241. Most of these schools are under Mission management; and they usually teach needle-work of various kinds, lace-making and embroidery, besides giving some general education.

7. **Zenana Education.**—On 31st March 1929 there were 52 Zenana Governesses who taught 1,284 pupils. As in previous years, two schemes are in operation, for imparting education to Zenana women, viz. (1) house-to-house visits and (2) giving instruction at Central gatherings of purdah women. Both schemes have been condemned by the Inspectresses of Schools, and the reform of Zenana education on more effective lines is now under the consideration of the Department.

8. **Needle-work.**—There has been an appreciable improvement in the standard of needle-work done in girls' schools. The Lady Carmichael Diploma Examination in needle-work is proving more and more successful every year, and almost all the important schools in the Eastern Bengal Divisions take part in it. The number of candidates in July 1928 were 389, of whom 335 were awarded diplomas, against

324 and 263, respectively, in the previous year. Girls' primary schools in the interior which are staffed by male teachers are seriously handicapped by the absence of women who are able to teach needle-work.

9. **Expansion of female education.**—The question of providing facilities for higher education for girls at district headquarters has been under consideration for some time past, and during the year 1928-29 Government gave their general approval to the policy that a high school for girls on a grant-in-aid basis should be established at each district headquarters as a demand for such arises, within the limit of available funds. As already noted, the Khulna Coronation Middle English School has been raised to the status of a high school: while the District Inspector of Schools, Howrah, reports that the Howrah Municipality has decided to open a high school for girls in the town, to be maintained out of Municipal funds supplemented by fees and local subscriptions. The proposal for raising the Faridpur Middle English School to the high school status is being matured: and the question of raising the status of the Middle schools at Bankura, Jessore and Murshidabad is also engaging the attention of the Department. The scheme for the establishment of a middle English school at Burdwan has been administratively approved by Government, and the raising of a girls' school at Chinsura to the Middle English status has been also sanctioned. There is every indication that the demand for education of girls is growing, particularly in the larger towns. It is also obvious that girls are likely to remain longer at school than previously owing to the passing of the Sarda Bill into law since the close of the year under report. Far more money than is at present available will evidently be needed in the near future to cope with the growing demand for the education of girls.

CHAPTER IX.

Education of Europeans and Anglo-Indians.

Schools.—On 31st March 1929 there were 68 schools for the education of European and Anglo-Indian children as against 64 returned in the previous year. Of this total, 64 were schools for general education and 4 for special instruction, the corresponding figures in 1928 being 61 and 3, respectively. The increase in the former case is due to the inclusion of the Ishapur Park European School, the Jeshuran Free School, Calcutta, and the Wesleyan Preparatory School at Hastings, Calcutta; while the inclusion of the Bengal-Nagpur Railway Apprentices' Night School, Khargpur, which failed last year to submit the usual returns, accounts for the additional special school. The schools for general education included 22 secondary, 20 higher grade, 20 primary and 2 ungraded institutions. European schools are mainly concentrated in the large towns and hill-stations, but are also found at important railway centres like Asansol and Khargpur. The European schools in the province with the exception of 3, viz., the Victoria Boys' School, the Dow Hill Girls' School and the Dow Hill Training College, Kurseong, which are Government institutions, are managed by Railway authorities and the various Christian denominations.

2. **Pupils.**—The following table shows the distribution of pupils at the different stages of instruction in European schools:—

It should be explained in connection with the absence this year of pupils in the higher secondary stage that according to the new Code of Regulations for European schools the double gradation of higher secondary and secondary schools has now been merged into "Secondary." Many European schools are mixed schools containing both boys and girls: but for report purposes they are classified as boys' schools or girls' schools according as they contain respectively a majority of boys or girls. The above figures include 1,944 non-European pupils attending European schools on 31st March 1929 against 1927 on the corresponding date of 1928. Of this total about 1,200 are Armenians, Jews and Parsis.

3. **Expenditure.**—The total expenditure on the education of European and Anglo-Indian children in Bengal amounted, during the year under review, to Rs. 39,68,243 (including boarding charges of Rs. 13,06,732) as compared with Rs. 39,30,915 in the year preceding. The sources of this expenditure were as follows:—

	Rs.
(*i*) Provincial revenues	10,01,164
(*ii*) Municipal grants	25,276
(*iii*) Fees	16,82,692
(*iv*) Subscriptions, endowments, etc.	12,59,111
Total	39,68,243

Expenditure from public funds decreased to 25·9 per cent. while that from private sources increased to 74·1 per cent., so that out of every Rs. 4 spent on European education the State has only to contribute a little more than Re. 1.

4. **Scholarships.**—Rupees 29,885 was expended on scholarships during the year 1928-29 as against Rs. 30,410 in the previous year; this figure excludes the amount of extra Provincial Scholarships paid in Bengal.

5. **Teachers.**—The 68 European schools in Bengal employed 760 teachers on 31st March 1929 as compared with 725 on the corresponding date of the previous year. The average number of teachers per school was thus 11, and the average number of pupils per teacher nearly 15. Of these 760 teachers, 111 were graduates, 407 (including 53 graduates) were trained and 353 (including 58 graduates) were untrained.

6. **Training of teachers.**—The Government of Bengal deputed during the year under review 2 European male teachers to the Chelmsford Training College at Ghora Gali (near Murree) for training as elementary teachers, as facilities for training European male teachers do not exist in the Presidency. The Dow Hill Training College, which is the only institution for the training of European and Anglo-Indian female teachers in Bengal, had 21 students on 31st March 1929 as compared with 17 on the corresponding date of 1928. At the annual examination held in November 1928 all the 9 senior or second-year students, who sat for the final examination passed; and all the 14 junior or first-year students were permitted to complete their course of training during 1929.

7. **Vocational training.**—Of the 64 institutions for general education 22 had technical or vocational classes attached to them. (*a*) The number of schools which taught the School Final courses comprising commercial, industrial, domestic or telegraphy courses was 15; these classes had 141 pupils on the last day of the year under report. (*b*) Special classes in domestic Science (plain cookery and plain needlework) continued to be maintained at the 5 schools mentioned in previous Reports, and on 31st March 1929, the total number of pupils had more than doubled (62 against 30). The candidates from Dow Hill School and St. Helen's Convent, Kurseong, were examined by the City and Guilds Examination Committee in November 1928 at Kurseong with the following results:—

	Entries.	Passes.
Plain needle-work	7	4
Plain Dress making	4	3
Plain Cookery	3	3

(*c*) Special classes for probationary sick nurses were held at the Loreto Convent, Entally, and the St Andrew's Colonial Homes, Kalimpong: as well as for Children's nurses at Kalimpong. (*d*) Classes in practical agricultural training were also held at the Colonial Homes, Kalimpong. Finally (*e*) the Government of Bengal have authorized the opening of Evening Continuation Classes in connection with the Salesmanship Course under the Code of Regulations for Girls at the Young Women's Christian Association, Calcutta, at a cost of Rs. 450 on an experimental basis.

A scheme for making "Domestic Science" compulsory in European Schools for Girls in Bengal is also under the consideration of the Inspector.

8. **Examinations.**—The following table shows the comparative results of the various examinations for which pupils entered in 1928-29 and 1927-28:—

	1928-29.				1927-28.

The number of candidates at the Apprenticeship Admission Examination conducted by the Board of Control for Apprenticeship Training continued to increase. In 1928-29, 35 passed out of 139 appearing at the examination as compared with 29 and 83, respectively, in the previous year. A considerable number of these are Europeans and Anglo-Indians.

9. **Collegiate Education.**—As previously reported, St. Joseph's College, Calcutta, prepares boys for the Intermediate Examinations of the University of Calcutta. St. James' College, Calcutta, and La Martinière, Calcutta, have also opened Intermediate Classes, the former in Science and the latter in both Arts and Science. There are signs already that the improved facilities offered by these intermediate classes of European schools for the spread of University education among Anglo-Indians, are likely to be well utilized. St. Joseph's College, Calcutta, passed 12 out of 13 students who sat for the last I.Sc. Examination and 2 out of 2 in the I.A. Examination. One student appeared from St. James' College, Calcutta, at the last I.Sc. Examination and passed in the First Division. La Martiniére sent up 2 students for the I. A. Examination, both of whom were successful.

10. **Education of deficient and defective children.**—The Children's House, Kurseong, again reported 19 physically and mentally defective European children on the rolls and received the same amount of aid from provincial revenues (Rs. 1,800) towards the upkeep of the institution. The problem of training defective children is a difficult one and it is hoped that Government will shortly make a complete investigation of this matter so as to bring the methods and organisation in Bengal into line with recent developments in Europe and America.

11. **Sussex Trust.**—The income derived from the Sussex Trust Fund was expended during the year 1928-29 on the objects noted below:—

	Rs.	A.	P.
(*i*) Scholarships	12,619	14	0
(*ii*) Maintenance charges of three schools for Backward Indian communities ..	2,106	5	3
(*iii*) Miscellaneous charges	900	0	0
Total ..	15,626	3	3

Altogether 23 European and Anglo-Indian students were awarded scholarships from the Trust.

12. **Doveton Trust Fund.**—The total receipts during the year 1928-29 (including the closing balance of the previous year and also the interest accruing on the securities up to the half-year ending 31st October 1928) was Rs. 12,454-4-6, and the total amount of expenditure for the same period amounted to Rs. 7,180-14-0, leaving a closing balance of Rs. 5,273-6-6. The Government of Bengal sanctioned after the close of the year the proposal to authorize the Administrator of the Fund (the Inspector of European Schools, Bengal) to invest a sum not exceeding Rs. 5,000 in Government Securities, so that more scholarships may be awarded. Sixteen scholarships at rates varying from Rs. 10 to Rs. 40 a month were renewed and eight scholarships at rates varying from Rs. 10 to Rs. 40 a month were awarded. The decrease in the number of scholarships from 39 to 24 was due to the increased value of those awarded during the year.

13. **New scholarships.**—The Director of Public Instruction has been made the local education authority in connection with any candidates from European schools in Bengal for the five Milner Memorial Scholarships that have recently been founded at the King's School, Canterbury, England, out of the funds collected by the Lord Milner Memorial Committee to perpetuate the memory of the work done for the British Empire by the late Lord Milner. These scholarships are open to boys of British parentage and European descent in the British Dominions, including India. Regulations for the conduct of this Scholarship Examination are under preparation by the Inspector.

14. **Controlling Agency.**—Mr. W. F. Papworth, Inspector of European Schools, Bengal, was on leave for eight months from 15th April 1928 during which period Mr. H. A. Stark again officiated.

15. The New Code of Regulations for European Schools in Bengal which was published in the previous year came into force on 1st January 1929. It is hoped that this Code will assist in promoting the teaching of science and manual work in boys' schools, as well as domestic science in girls' schools.

CHAPTER X.

Education of Muhammadans.

Statistics of Muhammadan pupils in relation particularly, to those of Hindus.—During the year under review the number of Muhammadan pupils studying in all types of educational institutions for Indians rose from 1,235,706 to 1,304,376, Muhammadans thus constituting 49·9 per cent. of the total number of pupils under instruction in the Presidency as compared with 49·6 per cent. in the preceding year. Of the total number of Moslems, 1,041,572 were males and 262,804 were females as compared with 1,059,498 Hindu boys and 218,877 Hindu girls. In arts and professional colleges the proportion of Moslems to the total number of students on the rolls was 12·8 and 15·3 per cent. against 13·7 and 14·8, respectively, in the previous year. The highest total of Musalmans in colleges in Bengal (4,305)

was reached in 1926-27, but the numbers have since shown an increasing annual fall to only 3,789 in the year under report. In the high and middle stages of instruction the proportion of Moslems was 15·6 per cent. and 20·4 per cent., respectively, of the pupils of all communities, as against 14·8 per cent. and 19·5 per cent. in the preceding year. In these two cases, the maximum numbers (24,773 and 25,016) were reached as long ago as 1919-20 and 1917-18, respectively. In the high stage the fall that then began continued till 1922-23 when the number was 13,593; but a small though steady increase then commenced and the actual total on 31st March 1929 was 17,759, showing an increase over the previous year of 1,934 students. In the middle stage, the lowest figure (14,708) was reached in 1924-25, but the number has since steadily increased till the year under report when 22,608 were recorded. In the primary stage the proportion was 52·2 per cent. against 51·8 per cent. while in other special schools it was 72·6 per cent. against 71·9 per cent. in the previous year. The figures so far as the top two classes of the primary stage are concerned (on which alone any comment on the relative progress of Moslem education at this stage can be based) have already been discussed in paragraph 4 of Chapter V, and show a greater increase in the case of Musalmans last year than in that of Hindus: but Moslems still only number about one-third of the total pupils in these classes instead of being over a half as they should be according to the population of Bengal as recorded in the last census. The comparative poverty of the Moslem community and the general prejudice against a purely secular education are probably the chief reasons, especially in the higher stages of instruction: but another factor that merits searching enquiry in connection with the present disproportion in numbers between Muhammadan and Hindu pupils in the high and middle stages (in the year under review 17,759 against 94,451 in the high stage and 22,608 against 86,081 in the middle stage) is the rise during the last few years in the number of Madrasahs. The Inspector of Schools, Chittagong (who is himself a Muhammadan) says, with reference particularly to old-type Madrasahs, "These institutions are cropping up everywhere choking all the secular and reformed institutions. It is time that something was done to prevent this deplorable waste of energy of an already backward community." The questions raised by the figures quoted in this paragraph are now under examination with a view to ascertaining what steps should be taken to increase the proportion of Muhammadans in the higher stages of ordinary educational institutions.

2. **Special institutions for Muhammadans.**—Facilities for higher education continued to be given to Muhammadan boys by the Muslim Hall of Dacca University and the Islamia College, Calcutta; a brief account of the latter has been already given in Chapter III of this Report. Other institutions that are specially intended for Muhammadans will now be described under separate heads.

(*i*) *Islamic Intermediate Colleges.*—The number of Islamic Intermediate Colleges remained unchanged at 3 (viz., 2 maintained by Government and 1, at Sirajganj, aided). The second-year Intermediate Class on an Islamic basis was opened during the year under review at the Chittagong Madrasah. The total number of pupils in the 3 Islamic Intermediate Colleges on 31st March 1929 was 129 as against 154 on the same date in the previous year, owing chiefly to a decreased number of students at the Dacca Islamic Intermediate

College. Of the 81 students, who appeared from these colleges in the Islamic Intermediate Examination held in March 1929, 44 were successful. To ensure satisfactory work on the part of its students, the Dacca Islamic College has constituted an Academic Council with the Principal as President. The Chittagong Madrasah has also inaugurated a Madrasah Council and a Madrasah Union, the former to assist the Principal in academic and administrative matters, and the latter to train the students in managing their own affairs. The Serajganj Islamic College is giving some anxiety on account of bad examination results and has been warned by the Board of Intermediate and Secondary Education, Dacca.

(ii) Madrasahs.—On 31st March 1929, there were altogether 719 Madrasahs in the Presidency with 71,323 pupils on their rolls, as compared with 665 Madrasahs having 59,560 students in them on the same date in the preceding year. Of the total number of Madrasahs in 1928-29, 582 were of the reformed type, the rest being old-type. The total expenditure incurred for the upkeep of Madrasahs amounted in the year under report to Rs. 13,50,702 of which Rs. 4,65,804 was met from public funds; in the previous year the corresponding figures were Rs. 11,59,101 and Rs. 4,53,963, respectively.

(a) Reformed-type Madrasahs.—The number of High Madrasahs in the Province recognised by the Dacca Board of Intermediate and Secondary Education was 18 during 1928-29 (against 16 in the previous year): but others are reported to have applied to the Board for recognition. Of the 287 students, who appeared in the High Madrasah or Islamic Matriculation Examination in 1929, 147 passed or 51·2 per cent., as compared with 27·7 per cent. in the previous year. The indifferent results of the previous year having shown the need for improved methods in the teaching of English, a conference was called by the Board of Education, Dacca, in September 1928 to discuss the subject and to readjust, if necessary, the Madrasah courses. The proposals are still under the consideration of Government. In the Junior Madrasah Examination held in the year under report, 944 students passed out of 1,835 candidates, who sat for the examination. The ordinary Middle English School teaches two languages only, viz., English and Bengali, whereas the reformed Junior Madrasah, which is equivalent in status to Middle English School, has to teach four languages altogether, viz., English, Bengali, Arabic and Urdu. All Inspectors of Schools are of the opinion that the Junior Madrasah curriculum should be lightened. No additional Government grant was available last year for giving new or increased grants to reformed madrasahs in the Presidency. Proposals are under discussion by Government to appoint additional teachers at the Government Junior Madrasah, Rajshahi, in order to regularise the higher classes that were opened at the beginning of 1928 in anticipation of sanction with privately paid teachers.

(b) Old-type Madrasahs.—Calcutta Madrasah is, as stated in previous reports, the most important of the old-type madrasahs in the province. The revised course of studies sanctioned by Government for the Arabic Department was introduced in this Madrasah in July 1928; a Governing Body (with the Assistant Director of Public Instruction for Muhammadan Education, Bengal, as President) having powers and functions similar to those of Government Arts Colleges has been also constituted. The revised course of studies extends over 12 years—Junior Department 6 years, Senior Department 4 years and

Title Classes 2 years - as against 14 years under the old scheme—Junior 6 years, Senior 5 years and Title Classes 3 years, respectively. The institution of the new course also necessitated the appointment of six additional teachers, and the creation of 32 scholarships, viz., 4 of Rs. 15 a month and 2 of Rs. 10 a month, each tenable for 2 years in the Title Classes; 2 of Rs. 25 a month and 2 of Rs. 50 a month, each tenable for one year for research work; 18 of Rs. 5 a month, each tenable for one year for encouragement of the study of English in the Madrasah, and 4 of Rs. 10 a month, each tenable for one year in the Senior Classes of the Madrasah. A Board was constituted in the year under review for conducting the Central Madrasah Examinations of the Calcutta Madrasah and 13 other Madrasahs in the Province affiliated to it for the purpose of the examinations. The fall in the number of these institutions is due to the withdrawal of recognition from four Madrasahs in the Chittagong Division for inefficient work. In the Central Madrasah Examinations of 1929, 424 students passed out of the 835 candidates who sat for the examinations as compared with 369 out of 655 in the previous year. The question of providing a suitable building for the Muslim Institute attached to Calcutta Madrasah at a cost of Rs. 1,50,000 has been engaging the attention of the Department.

(*iii*) *Maktabs*:—The number of maktabs or primary schools for Moslems rose from 22,892 in 1927-28 to 24,186 in 1928-29: of the total number of maktabs 15,368 were for boys and 8,818 for girls. Pupils reading in these institutions also increased in the year under review from 705,439 to 760,258, of whom 545,038 were boys and 215,220 were girls. The total cost of maintaining maktabs amounted in 1928-29 to Rs. 22,35,479 as compared with Rs. 20,77,941 in the preceding year, of which Rs. 10,15,316 was met from public funds, the corresponding figure in 1927-28 being Rs. 9,51,318. Maktab pupils have to compete for the Primary Final and Preliminary scholarships with the boys of ordinary Primary Schools—an arrangement which is criticised in some quarters by those who demand separate allotment of scholarships.

(*iv*) *Quran Schools*.- Quran schools are private institutions teaching the recitation of the Quran and the study of one or two Urdu books on Islamic ritual. The number of these schools declined from 617 to 591.

(*v*) *Muallim Training Schools*. The number of Muallim Training Schools, which provide facilities for the training of maktab teachers or teachers of Moslem Primary Schools, remained unchanged at 6 during the year under report. Particulars of these schools have been included in Chapter VI of the report.

3. **Education of Muhammadan Girls.**—On 31st March 1929, the number of Moslem girls reading in various grades of recognised schools and colleges in the Presidency was 257,830 as compared with 242,483 in the previous year. Of these girls, 5 (the same figure as in 1927-28) belonged to colleges, 38 (against 29) to the high stage, 82 (against 60) to the middle stage and 257,429 to the primary stage of instruction, while 276 were in special schools. Out of the total number of over 250,000 Musalman girls in the primary stage of instruction only 2,852 are reading in classes V and IV or 1·1 per cent. as compared with 2,933 or 1·2 per cent. in 1927-28. The corresponding figures for Hindu girls were 8,082, 3·9 per cent. and 6,520, 3·4 per cent., respectively. The number of Musalman girls in these

classes has thus again decreased while that of the Hindu girls has considerably increased. It is however painfully evident that in both cases the mass of girls never emerge from the bottom classes of primary schools. The much lower proportion of Muhammadan girls to that of the Hindu girls in the higher classes of these schools is partly due to the causes noted at the end of the first paragraph of this Chapter, but in the case of girls it is accentuated by the purdah system which is more strictly observed by Muhammadans than Hindus and which prevents grown up girls from coming out of their houses to attend school.

4. **Special facilities for Muhammadans.**—During the year under review Moslem students were offered the same facilities in education, as were enjoyed by them in previous years, viz., reservation of places in Government and aided schools, grant of special scholarships and stipends, and free studentships to the extent of 15 per cent. of their own enrolment. Greater inducements are evidently necessary in order to bring about any considerable improvement in the number of Muhammadans reading in the collegiate and secondary stages of educational institutions, and the question of the possibility of awarding an increased number of scholarships to Muhammadans was dealt with in a note submitted to the Hartog Committee by the Educational Secretary to the Government of Bengal.

CHAPTER XI.

Education of Special classes.

Education of Chiefs and Nobles.—There is no institution in Bengal specially intended for the education of the children of Chiefs and Nobles, but in the Nawab Bahadur's Institution at Murshidabad special arrangements continue to be made for educating boys of the Nizamat family. One of the four hostels attached to the institution is exclusively set apart for 26 of these boys who are under the supervision of the Head Master, assisted by an Ataliq. A sum of Rs. 6,130 was paid from provincial revenues during the year under report for the maintenance of this special hostel.

2. **Education of the children of backward classes.**—The figures quoted below show the numbers of boys and girls belonging to backward communities that were under instruction in the various grades of institutions in the Presidency on 31st March 1929. Special encouragement is given to the aboriginal Sonthals; and among educationally backward non-aboriginal castes, progress was specially marked in the case of the Namasudras, Mahishyas and Pods. Scholarships in all the Divisions are reserved for children of these communities who show the best results at departmental examinations.

Class of Institution.	Boys.	Girls.	Total.
Arts Colleges	936	..	936
Professional Colleges	813	..	813

Unrecognised Schools	6,921	566	7,487
Total ..	351,990	53,653	405,643

The corresponding numbers on the same date of 1928 were 319,952, 47,958 and 367,910, respectively. The succeeding paragraphs give a short account of the educational progress that was observable among children of aboriginal and non-aboriginal backward classes during the year under review in each part of the Presidency separately.

Calcutta.- The number of primary schools maintained by Missionary Societies in Calcutta, with financial assistance from Government and the Corporation, for the education of backward classes remained stationary at 12—7 for boys and 5 for girls—with 566 pupils during the year under review, against 467 in the previous year. Fourteen primary schools (with 554 pupils) and one industrial school (with 53 pupils) were under the direct management of the Hindu Relief Society. These schools cost Rs. 9,928, of which the Corporation paid Rs. 1,879. Besides this, the Society spent Rs. 190 a month on inspection. The total number of pupils of the backward classes under instruction in all types of recognised and unrecognised schools in the City on the last day of the year under review, was 8,409 (including as many as 2,693 girls) against 7,987 (with 2,293 girls) in the previous year.

Presidency Division (outside Calcutta).—On 31st March 1929, 80,060 boys and 11,525 girls of the educationally backward classes were under instruction in various classes of schools in this Division, the figures showing a slight decrease in each case on those of the previous year, in spite of the fact that the number of secondary schools that imparted instruction to the boys of backward communities during the year under review increased from 17 to 31, of which 4 were high and 27 middle schools. As in previous years, the Sussex Trust Fund maintained 3 primary schools, 2 for boys and 1 for girls, for the education of the children of backward communities.

Burdwan Division.—Apart from the Mahishyas of Midnapore who out-number most communities and who have almost passed out of the category of educationally backward classes, the Sonthals are the most backward class in this Division. During the year under review the number of pupils belonging to the educationally backward communities increased from 105,232 to 124,184 in the Division. Whatever progress has been achieved in this direction is due chiefly to the efforts of the American Baptist Mission of Midnapore and the Wesleyan Mission of Bankura who have devoted themselves to the amelioration of the condition of backward races. During the year under review there were altogether 241 schools (with 6,857 pupils), viz., 1 high, 2 middle vernacular, 233 primary, 2 guru-training and 3 industrial schools, intended exclusively for the education of Sonthals. The total expenditure on Sonthal education in the districts of Midnapore, Bankura and Birbhum amounted during the year 1928-29 to Rs. 56,139, of which Rs. 37,566 came from provincial revenues. There were also 6 Bhumij schools in Bankura (with 190 pupils) and 7 primary schools (with 451 pupils) in Howrah for methars, dhangors and dosadhs.

Dacca Division.—The number of pupils belonging to aboriginal and non-aboriginal backward races reading in all classes of institutions in the Division rose from 86,557 to 95,253, of whom 78,658 were boys and 16,595 girls; of this total 70·8 per cent. were Namasudras, and 1,440 (including 258 girls) were drawn from the aboriginal races. During the year under review there were nine primary schools for

Muchis, 9 for fishermen, 63 for aboriginal tribes, 11 for Magh pupils in the Colonisation area of the Sunderbans, 3 for methars and 1 for criminal tribes. The number of primary schools exclusively intended for Namasudra children increased from 1,029 to 1,087. One High English School and one Middle English School were opened during the year under report for Kapali boys.

Chittagong Division.—The total number of pupils of non-aboriginal backward races returned from all grades of schools in the Division, was 22,156 boys and 5,673 girls, the latter figure showing a remarkable increase of 2,201 over that of the previous year. Of the 159 recognised schools for boys and girls of the Hill tribes, one is the Government high school at Rangamati, two are aided middle schools, 155 are primary schools and one is a training school at Chandraghona under Mission management. The total number of pupils in these schools on 31st March 1929 was 3,290. In the Lalmai Hills in Tippera there were two primary schools for the Tipras with 36 boys and 4 girls. The high, middle and primary schools in the Cox's Bazar subdivision had 395 Magh pupils out of an enrolment of 682 pupils. The Kyangs, or Monastic Schools, in this subdivision remained stationary at 30, but there was a slight increase in the number of pupils from 703 to 716.

Rajshahi Division.—On 31st March 1929 the total number of pupils of backward communities studying in various grades of institutions in the Division, was 52,432, of whom 47,407 were boys and 5,025 girls. The number of girls showed a decrease of 311, but there was an increase of 5,848 in the number of boys. Two Middle English schools (with 287 pupils) one in Dinajpur and the other in Bogra—are attended chiefly by Sonthals and other aboriginal races. The districts of Dinajpur, Malda, Rangpur and Jalpaiguri had 113 primary schools specially intended for Sonthals. Of these schools 10, 31 and 10 were under the direct control of the Boards of Sonthal Education in Dinajpur, Malda and Rangpur, respectively, and altogether they enrolled 2,855 pupils. In addition there are two schools under the Baptist and Roman Catholic Missions in the municipal area of Dinajpur, which may, later, come under the control of the local Board of Sonthal Education. Of the total expenditure incurred on Sonthal primary schools in this Division in the year under review Rs. 6,735 was met from provincial and Rs. 5,076 from district funds; the corresponding figures in the previous year were Rs. 6,737 and Rs. 2,247 respectively.

The term of the scheme for the education of aboriginal tribes in Rangpur is now over, but a fresh proposal for the renewal of the scheme on an extended basis is under consideration.

3. **Education of Criminal Classes.**—The Salvation Army has a school at Nilphamari (Rangpur) for the education of the children of the Kerwal Nuts, a criminal tribe, where instruction in farming, gardening and weaving is given, as well as elementary teaching of the 3 R's. There were 63 pupils in the school on 31st March 1929, against 73 in the previous year.

The Reformatory School, Alipur, which was transferred to the Education Department with effect from 1st April 1928 had, as before, a General section with 3 teachers, and a Technical section with 6 teachers. The number of pupils rose from 117 to 180 during the

year under review. The question of the re-organisation of the school has been engaging the attention of the Department; and a revised scale of diet, clothing and bedding was sanctioned by Government in January 1929.

The Borstal Institution at Bankura, which is under the direct management of the Jail Department, had 164 pupils on the rolls on 31st March 1929, and the cost to Government for the educational side of the institution was reported to have been Rs. 1,019. Besides general education of a rudimentary character the pupils are taught carpentry, weaving, basket-making, book-binding and tailoring.

4. **Education of defectives.**—Nineteen European children suffering from mental or physical defects were under training in the Children's House, Kurseong, on 31st March 1929. The Deaf and Dumb School, Calcutta, which is supposed to teach up to the Final Primary Course in addition to painting, carpentry, tailoring and printing, had 135 pupils on its rolls on 31st March 1929, but the school again did not present any candidate for the primary examination during the year. The Blind School at Behala (district 24-Parganas) had 77 pupils and out of the total expenditure of Rs. 26,197, Rs. 7,620 was borne by provincial revenues. There were four schools in the Dacca Division (one in each district) for defective children, with 56 pupils (including 8 girls), on 31st March 1929. These schools cost Rs. 6,483, of which Rs. 3,420 was borne by provincial revenues. The Deaf and Dumb School at Chittagong had 14 pupils and the total cost for the upkeep of the institution was Rs. 1,248, of which Rs. 720 was provided from provincial revenues.

5. **Education of Factory and Colliery children.**—The children of mill hands receive instruction in the primary schools and maktabs existing in the mill areas. The primary schools at Titagarh, Ichhapur and Kankinara are exclusively intended for them. The first of these has also a Telegu class attached to it. The Rifle Factory School at Ichhapur which is intended for the children of workers in the Factory continued to be popular. There is also another school for the operatives of the Metal and Steel Factory at Ichhapur. In the year under review there were altogether 10 schools in the district of the 24-Parganas with 1,025 pupils, mostly children of mill and factory operatives, which were maintained at a total expenditure of Rs. 13,277. The district of Burdwan had 9 colliery schools with 215 pupils on 31st March 1929. These schools cost Rs. 1,294, of which Rs. 1,112 was provided from provincial revenues.

6. **Tea Garden Schools.**—The districts of Jalpaiguri and Darjeeling reported altogether 160 tea-garden schools with 2,871 pupils on 31st March 1929. Special visits by Sub-Inspectors to tea-garden schools in the Jalpaiguri district in connection with the fall in the number of pupils noted in last year's Report led to the number of schools in that district being increased from 86 to 99, with a rise in the number of pupils from 1,158 to 1,482. The total expenditure on these schools amounted to Rs. 21,695, of which Rs. 9,014 came from provincial revenues.

7. **Education of Jains.**—Altogether 836 Jain pupils were returned on 31st March 1929 from the various grades of schools in the Presidency as compared with 687 on the corresponding date of the preceding year, showing a gain of 21·7 per cent.

8. **Enquiry regarding special interests of backward classes.**— In November 1928 the Government of Bengal issued a letter suggesting the desirability of appointing a Special Officer to look after the interests of the backward classes in Bengal. A thorough enquiry was initiated through Divisional Inspectors, but, as the result of this, it was not considered necessary to appoint a Special Officer. It was however recommended that more free-studentships should be granted, that allotments made for aiding schools attended largely by pupils of the backward classes should be increased, and that a greater number of reserved scholarships should be sanctioned.

CHAPTER XII.

Unrecognised Institutions.

On 31st March 1929 there were 1,583 unrecognised schools with 57,865 pupils as compared with 1,568 schools attended by 55,034 pupils on the corresponding date of the preceding year. There has thus been an increase in the number of unrecognised institutions and in that of pupils attending them. The majority of unrecognised institutions are newly-started schools which have not attained the requisite standard of efficiency to be classified either as high, middle or primary schools. Of the total number of pupils under instruction in unrecognised schools on the last day of the year under review 25,155 were Hindus and 30,939 Muhammadans, the rest belonging to other communities. As mentioned in previous reports, schools teaching the Quran, " national " schools, as well as other miscellaneous but inclassifiable schools, belong to this category. The pupils of unrecognised institutions do not follow the prescribed course of studies and are not ordinarily eligible for admission to public examinations.

The most conspicuous among these institutions are the Kabiudra College, Goila, Bakarganj, the Santiniketan at Bolpur and the Sriniketan at Surul, both the latter being in Birbhum district. The first of these institutions is a seat of higher Sanskrit studies—Ayurveda and Hindu Philosophy—and the last specialises in the teaching of rural reconstruction. The Santiniketan and Sriniketan have arrangements for cultural and physical education as well as for the teaching of agriculture, weaving, carpet-making and other vocational subjects. The students are taught a good deal by way of self-help, as they have to attend to most of their personal needs. Pupils of the Bolpur School may, further, if they so desire, sit for the examinations of Calcutta University.

The Barisal Oxford Mission School, which is a residential institution with a good staff of teachers, follows its own curriculum.

The institutions mentioned above are doing valuable work and it is an encouraging sign that some of these schools (as well as other recognised schools previously referred to) are seeking to combine both the cultural and practical sides of education and are not afraid to break away from stereotyped forms in the search for what is best in education.

CHAPTER XIII.

Physical and Moral Training.

Hostels.—On 31st March 1929 the hostels and boarding houses attached to various grades of schools and colleges in Bengal had altogether 33,316 boarders as compared with 31,550 on the corresponding date of the preceding year. Of the total number of boarders, 5,308 resided in hostels meant for Europeans and Anglo-Indians, while 28,008 occupied hostels intended for Indians. Of the European and Anglo-Indian boarders 3,019 were males and 2,289 were females: while the figures in the case of Indian students were 24,829 and 3,179, respectively.

A new hostel was started in January 1929 for the students of the College Section of the Chittagong Madrasah. Administrative approval of Government was also accorded last January to the opening of a hostel for residence of the students of the Sanskrit College, Calcutta. The erection of a hostel for 40 students, which is to be named the "Lytton Hostel" is also proposed by the authorities of the Edward College, Pabna. The question of grants payable to aided hostels for pupils of secondary and special schools was considered by Government during the year under review, and it was decided that while the principle of making hostels ultimately self-supporting should be adhered to, for the present no alteration in grants or fees should be insisted on in respect of school hostels in furtherance of this principle.

2. **Messes.**—The messes under the control of the University of Calcutta continued to be administered by the Students' Residence Committee through the Inspector of Messes. Altogether 2,063 students resided in 45 messes (excluding non-collegiate hostels) during the year under review. The messes in the city of Dacca were managed, as previously, by the Board of Intermediate and Secondary Education with the assistance of the Assistant Inspector of Students' Residence and the Standing Advisory Committee. Altogether 726 students belonging to different educational institutions in the city participated in the benefits of the mess scheme. Of the boarders, 689 were males and 37 females. In both Calcutta and Dacca the bulk of the expenditure incurred for running messes occupied by the members of backward or depressed classes is met by Government.

3. **Physical Education.**—*A.—For Boys.*—There still seems to be little evidence of a general interest among college students in physical training, although attempts have been made in recent years to improve conditions by the provision of gymnasia and playing fields. The value of a trained physical instructor has not yet been universally recognised; extension of facilities, rather than the provision of skilled leadership, has been aimed at by school and college authorities. The teaching of drill, which is theoretically compulsory for high, middle and primary schools and madrasahs is not satisfactory. Attempts have, however, been made by the Department to carry out the Resolution of the Bengal Legislative Council of 22nd February 1926 by making physical education compulsory for all students between 12 and 18 years of age. In a circular issued by the Director of Public Instruction on 9th June 1928 it was laid down that all boys in the upper classes should have two lessons and those in the lower classes three

lessons in physical exercises weekly, while all should play games after school hours. The question of the provision of adequate playing space in Government high schools has been engaging the attention of the Department, as the absence of this hampers progress. The gradual diffusion of the knowledge of small-area games, and of their advantages as regards cheapness, ease in organisation, excellent physical results, and the interest they provide is doing much to solve the problem of lack of playing space and want of money and apparatus. A sum of only about Rs. 5,500 was available for distribution last year by Divisional Inspectors of Schools to Government High schools for the promotion of games and athletics. The short training courses for drill and gymnastic masters conducted in the past by the Physical Adviser to Government were continued by Mr. Buchanan, the newly-appointed Physical Director, and the Assistant Physical Director. About 80 teachers were trained in the courses November-December 1928 and January-February 1929. The essentials for future development in physical education are trained teachers, creation of interest, presentation of schemes, and gradual establishment of the subject as part of the curriculum of all schools. Among foreign games, football, hockey, tennis and badminton are mostly in vogue. Indigenous games, swimming and rowing are also encouraged, where boys take interest in them. The question of the provision of midday tiffin, without which boys can be hardly expected to take cheerfully to physical exercises after school hours, has not yet been universally recognised, but Keshab Academy, Calcutta, provides a valuable example of what can be done in supplying tiffin at a very small cost, the average daily cost being one pice per boy. The Rampurhat Union school is reported to have gone so far as to supply to boys tiffin free of charge.

B.—For Girls.—The period of Miss Carswell's engagement with the Y. W. C. A. having expired in March 1929 a new Physical Directress—Miss Pepler—was appointed, and she arrived in Calcutta shortly after the close of the year under review. Miss Pepler wll carry on her predecessor's work in Government schools and colleges. As already noted, Miss Carswell did excellent service in teaching and organising games and physical exercise in girls' schools. In her final report, Miss Carswell has recommended among other things, that (*i*) physical education should be included in the curriculum of girls' schools and colleges in the province, (*ii*) training courses for teachers should be held regularly, (*iii*) physical education should be a compulsory subject for all training colleges (Indian and European) and (*iv*) some posts of drill instructresses should be created. As regards physical culture in girls' schools, the following observations made by the officiating Inspectress of Schools, Dacca Circle, sums up the present position. "This has been greatly neglected in the past and people are just awakening to a sense of the importance of physical culture for young girls. Drill was socially tabooed in the past, but opposition is slowly dying down. Progress however is slow owing to the inadequate knowledge of teachers as to how to teach drill properly. Want of space is another drawback. Schools should also take particular care in selecting benches and desks. * * * * * * Bent backs, stooping figures, and bad eyesight are often due to uncomfortable positions during school hours."

4. **Boy Scouts.**—The movement continues to enjoy increasing popularity. During the Scout year 1928 there were 53 local associations,

5,412 scouts, 1,268 cubs, 373 rovers, and 378 scouters showing an increase of 6 in the number of associations, with an increased total enrolment of 1,138. As before, a sum of Rs. 4,000 was distributed by Government during the year under review among Government and non-Government schools for equipment and camp expenses. A suggestion for the introduction of scouting principles and scout games and laws in primary schools was approved by Government, and a special grant of Rs. 450 was also sanctioned to meet the expenses of an extra camp. The Physical Director observes however that the aim of "service for others" in the scout movement must not be allowed to obscure the other equally important aim "self-help" and that grants should be made to the Scout Association and not direct to schools. In the district of Malda Scout masters proved of great assistance in introducing games in schools.

5. **Girl Guides.**—Guiding still continues to make rather slow progress; but 5 teachers, 4 from the Eden High School for Girls, Dacca, and 1 from the Vidyamayee High School, Mymensingh, were deputed last year to the All-India Training Camp at Calcutta. A Girl-Guide Company and a class of Blue-Birds have been started in the Eden High School for Girls, but so far only the hostel girls are said to have joined.

6. **Medical supervision.**—Proposals are under consideration for the improved medical inspection of students in Government schools and colleges. In the case of non-Government schools and colleges in the Presidency few have at present any scheme for the regular medical inspection of students. Some are reported to be occasionally visited by medical officers, but the results of these examinations are not available for statistical purposes. The Medical Board attached to the Students' Welfare Committee, Calcutta University, which is at present the only body investigating the physical condition of college students, visited 7 colleges during the year 1928 and examined 1,923 students. Six hundred defect cards were issued from the office of the Committee to those students who were found to be suffering from remediable complaints. The Committee attributes the present deplorable state of the health of College students in Bengal to negligence and ignorance of the laws of health, unbalanced diet, want of physical training, and over-work. During the year under review the Department of Public Health initiated a scheme for the medical inspection of Government and aided schools in the city of Calcutta. Three doctors took part in the work and examined 5,676 boys (mostly between the ages of 5 and 18), belonging to 32 different schools. Of these boys 55 per cent. were found to have some defect or other, the chief organic troubles being bad eyesight (13 per cent.), enlarged tonsils (11 per cent.) and defective teeth (8·7 per cent.). The Inspectors note with regret the difficulty of follow-up work, as in the large majority of cases, no notice was taken of reply-paid post-cards asking what parents were doing to rectify the defects previously pointed out.

7. **Hygiene.**—Schools generally have conformed to the regulations with regard to the teaching of Hygiene, and many of them have been provided with diagrams and charts suitable to the subject. Teaching of formal lessons is not however sufficient, and it is most desirable that teachers should take every opportunity of correcting boys, who show

habits detrimental to their own health or to that of others. Courses of lectures on hygiene and sanitation illustrated by lantern slides were again delivered in the more important schools and colleges by members of the Social Service League and Sanitary Inspectors employed by local bodies. The Scottish Churches College has started a Nursing Class for its women students, and the First Aid classes attached to the Bankura and Ripon Colleges are said to be popular.

8. **Discipline.**—No serious breach of discipline was reported from any institution except the Calcutta Madrasah where considerable friction occurred between the students of the Anglo-Persian and Arabic Departments. The situation was however soon brought under control and no recrudescence of the disturbances has since occurred. The peaceful condition of educational institutions generally was a welcome feature after the frequent troubles that were experienced in the previous year, but as subsequent events have shown, it appears to have been only a lull between two storms. As the Inspector of Schools, Burdwan Division, remarks "Impatience of discipline is one of the many evils which came in the wake of the non-co-operation movement and has secured for itself a stronghold among the student community." It is thus not merely the natural impatience of the young against normal academic restraint that has to be coped with, but also influences from outside. The chief aim at present must be to re-establish respect for the authority of the teacher within his own sphere of work. If this principle can be again achieved, it will then—and only then—be possible for the teacher, in his turn, to provide that calmer atmosphere in which alone useful work can be done in educational institutions, particularly in the direction of building up character and fostering the growth of independent judgment regarding the subjects taken up by the student for his course. As was recently remarked, "Discipline is merely a means to an end and that end is peace and order. These are the essential requirements of life if students are to reap the benefits which their years at school and college should yield them." This much is certain, that wherever discipline is absent, it becomes difficult even for those students who desire to work to do more than acquire, mechanically and at considerable disadvantage, even that modicum of temporary knowledge that is necessary for passing some examination. There will be no joy however in the acquisition: and, if there is one thing that the Bengali student needs more than anything else, it is that some element of joy and happiness should illumine his examination-ridden existence. Much can be achieved by participation in the activities of school and college life, especially games: but more important even than games is the inspiration of teachers: and unless teachers are certain of working in a peaceful environment, it is impossible for them to give of their best to the students committed to their charge.

9. **Religious and moral instruction.**—Except in denominational or sectarian schools like tols, madrasahs, maktabs, and mission schools where due provision is made for giving the boys some form of religious teaching, the question of the introduction of religious instruction in schools and colleges bristles with difficulties. In some institutions there are arrangements for holding weekly religious classes: but ordinarily lessons on morality can only be imparted through text-books; First Aid classes, Poor Funds, as well as Boy Scouts, Debating societies, and similar organisations can however be made to play an important part in the moral training of students.

10. **National Schools.**—On 31st December 1928 altogether 29 national schools with 1,875 pupils were reported to be in existence as compared with 33 schools and 2,674 pupils on the same date of the preceding year. The most important national school in the Presidency is the Bengal Technical Institute at Jadabpur (24-Parganas) with 590 pupils on its rolls against 606 in the preceding year. It teaches electrical, mechanical, and chemical engineering, as well as surveying. Of the remaining national schools, 2 impart instruction in medicine, 6 teach up to high school standard and 1 up to middle school standard. No national school in any Division conforms strictly to Departmental standards.

CHAPTER XIV.

Conferences.

A Conference of higher Educational Officers was held on 20th and 21st July 1928 at the office of the Director to consider the problems of increased facilities for the training of teachers of primary and secondary schools, particularly in connection with the requirements of the Primary Bill. Details of what was decided at this conference have already been given in the first paragraph of Chapter VI. Another Conference met on 19th February 1929 under the presidency of the Director, to discuss the question of a revised scheme for grant-in-aid to high schools in Bengal so as to ensure the financial stability of schools for which there is a proved necessity, the fundamental principles to be observed being (1) reasonable rates of remuneration for the staff, (2) Provident fund benefit for all teachers, and (3) prompt payment of salaries. The meeting was attended by the Divisional Inspectors of Schools, the Principals of Training Colleges and the Special officer (Dr. Jenkins). The recommendations made by the Conference are now under consideration.

The question of the introduction of the teaching of musics in secondary schools, and of the establishment of training centres for teachers of music was discussed by a representative conference held on 14th and 15th September 1928, under the presidency of the Director. The Conference appointed a Committee of musical experts to go into the matter and to draw up courses of studies. The Committee met first on 15th October 1928 and again on 2nd February 1929, under the presidency of the Rev. H. A. Popley, and ultimately appointed a Sub-Committee to give final shape to the recommendations of the Committee in regard to the course of studies. The Sub-Committee met several times after the conclusion of the year under report, and their proposals were finally endorsed at another meeting of the Conference. The decisions arrived at are being submitted to Government for consideration.

As previously noted, many meetings were held throughout Bengal by Sub-Inspectors in the middle of 1928 in order to explain to the raiyats the need for a Primary Bill and to ascertain mufassal opinion regarding the levy of a cess to meet the cost of the improved facilities contemplated under the Bill. Both the meetings, as well as the leaflets circulated at the meetings, were of considerable use in bringing the desires of Government to the knowledge of the raiyats, and have done much to pave the way for the ultimate adoption of compulsory primary education.

The Bengal Women's Education League held its third session in the Y. W. C. A. Hall, Calcutta, from 20th to 23rd February1929. The papers read at the Conference on such subjects as spread of education, the best type of education required for girls, and the teaching of Geography, History, Handicraft, and Music, were much appreciated, while the handwork exhibits were both instructive and helpful.

The All-Bengal non-Government School Teachers' Conference held two sessions during the year under review, the first being at Mymensingh during the Easter holidays in April 1928 and the second at Rajshahi in the last week of March 1929. At both meetings many resolutions were passed dealing with the improvement of the status of teachers, and the condition of secondary education in the Presidency. These meetings enable the needs of the non-Government schools to be understood by the Department, and steps are taken, wherever possible, to comply with the suggestions made at these meetings.

CHAPTER XV.

Text Book Committees.

For reasons given in previous reports, the two Text Book Committees—one at Calcutta and the other at Dacca—again did not function during the year under review: though a sub-committee of the Calcutta Text Book Committee met once for the adjudication of essays in connection with the award of the Braja Mohan Dutta Prize for Indian ladies.

The revised syllabuses of studies for secondary schools which were sanctioned by Government in their notification No. 3059-Edn., dated 13th November 1928, will come into operation from 1st January 1931. In order to be ready by that time with suitable text books for the new syllabuses it has been decided to establish from 1st September 1929 a single Text Book Committee at Writers' Buildings, Calcutta, with the Director of Public Instruction as President. Owing to lack of funds, it has not been possible to appoint a whole-time Reader and Secretary to the Committee, while the important suggestion to remunerate the ordinary and co-opted members of the Committee for reviewing books has also had to be dropped until funds become available. Mr. Bottomley, who became Assistant Director of Public Instruction for Muhammadan Education, on his return from leave after the close of the year under report, will work as Secretary to the Committee in addition to his own duties.

CHAPTER XVI.

Education in the Legislative Council.

Owing probably to the fact that the attention of Members of Council was focussed on an important piece of legislation, viz., the Bengal Tenancy (Amendment) Bill, 1928, Educational Questions, and Motions tabled for discussion in the Bengal Legislative Council in

1928-29 were comparatively few in numbers. The Education portfolio (Transferred) was in charge of a Minister up to 21st February 1929, when a motion of no-confidence in the Minister having been carried by the Council, the Hon'ble Nawab Musharuf Hosain Khan Bahadur relinquished the charge of the Department; for the rest of the official year educational affairs were administered in accordance with the provisions of the Government of India Act, 1920, by His Excellency the Governor acting through his Executive Council. A Bill to amend further the Dacca University Act, 1920, was introduced on 9th August 1928 for remedying certain defects that had been found to exist in the original Act. By the new Bill the Academic Council was made purely advisory in function, all executive powers being centred in the Executive Council. Other clauses enabled the University to recognise teaching given by teachers in the Teachers' Training College, Dacca, the School of Engineering, etc., and to associate the name of the late Nawab Salimullah of Dacca with the University. The Bill was duly passed into law with very little opposition. On 6th August 1928 a motion brought forward by Dr. P. N. Banerjea, to the effect that the Calcutta University Bill, 1927, be referred to a Select Committee, was also carried. The Bill provided for the increase of the elected element in the Senate, extension of the franchise, and reduction of registration fee payable by graduates. Mr. Fazlul Haq's motion to re-circulate the Bill for opinion to all members of District Boards, Municipal Commissioners, Anjumans and other Moslem Associations, all ex-members of the Bengal Legislative Council and the Legislative Assembly before the next winter session of the Council, was lost. Later in the year the consideration of Dr. P. N. Banerjea's Bill in the form in which it emerged from the Select Committee was, with the leave of the Council, deferred in order to enable Government to expedite the preparation of the Government Bill. The Council on 4th August 1928 gave a large measure of support to Babu Amulya Chandra Dutt's resolution which ran thus:—"This Council recommends to Government that steps be taken at once for the expansion and development of female education in the Presidency by establishing one high English school in the headquarters of each district, where there is not already such a school." Members, who took part in the debate that ensued, referred to the backward state of female education in the Presidency, the obstacles to progress such as the purdah, nature of the present curriculum for girls' schools (which one speaker declared to be ruinous to health), and the question of whether aided or Government schools should be preferred. The motion was agreed to. The motion brought forward on 9th August 1928 by the Hon'ble Minister for Education that the Bengal (Rural) Primary Education Bill, 1928, be referred to a Select Committee evoked some amount of criticism as to the scope of the Bill, the constitution of the proposed School Boards, and the principle of taxation proposed by the Bill. Ultimately, however, the motion was agreed to, and the report of the Select Committee was presented to the Council just before the close of the spring session of 1929.

In answer to Babu Amulya Chandra Dutt's question regarding provision of high schools for girls in district headquarters, it was stated by the Hon'ble Minister in charge of Education that "Government are willing to encourage within the limit of funds available, the establishment and maintenance of high schools for girls on a

grant-in-aid basis in localities, where there is a reasonable demand for such education amongst girls, and adequate private support is forthcoming." Among other Council questions the following deserve mention: (1) Introduction of a Bill by Government to amend the Indian Universities Act, 1904 (by Mr. S. C. Bose); (2) Alleged reservation of seats for Muhammadan boys in aided high schools in the Rajshahi Division (by Babu H. C. Naskar); (3) Number of primary and secondary schools for Indians and Europeans during each of the last five years, their cost, etc. (by Rai Harendra Nath Choudhury); (4) Applicability of the scheme of Arbitration Boards as provided in the School Code to aided schools (by Mr. S. C. Bose); (5) Deprovincialisation of high schools, and Government's policy in this respect (by Babu H. C. Naskar); (6) Provident Fund Scheme—use of compulsion and inadequacy of the funds provided (by the same member); (7) Number of primary schools, maktabs and schools for depressed classes in Pabna, and alleged issue of instructions by the District Board to Pandits to adopt the maktab curriculum (by Babu J. N. Maitra); and (8) Appointment of trained teachers in girls' primary schools, the nature of training required for teachers, and the institutions where teachers are trained (by Babu N. N. Sen). It will be gathered from what has been stated above that during the year under review a very considerable amount of useful work was done by the Legislative Council in the field of Education.

(Establishment and management of primary schools.) 3. In clause (*j*) of sub-section (2) of section 101 the words "schools and" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

It is universally admitted that there is urgent necessity for a great improvement in the condition of primary education in Bengal. The present system makes but little impression on the illiteracy of the province. The meagre resources that are now available are inadequately organised ; small schools springing up here and there have a fitful existence for a few years ; children attend irregularly and usually leave school before any real progress towards literacy has been made. The teachers are so poorly paid that the profession fails to attract persons with the requisite qualifications.

2. To remedy this state of affairs some attempts have already been made. A Primary Education Act, of which the author was Mr. Surendra Nath Ray of Behala, was passed in 1919, but it has had little practical effect, because the provision of funds was left to the option of local bodies. Similarly the scheme prepared by Mr. Biss under which Government undertakes to pay half the cost—both capital and recurring of primary education in any town or union has made little headway, because local bodies have proved reluctant to find even half the necessary funds. In the light of this experience it is clear that something much more drastic must be tried. Taxation cannot be left to the option of individual local authorities ; it must be compulsory, if progress in this vital work is to be accelerated.

3. The present Bill is based in the first instance on the Madras Elementary Education Act, 1920 (Madras Act VIII of 1920), but differs from that statute in many important features. Its operation is confined to the rural districts of Bengal because systems of taxation and control in rural areas must differ from those in urban areas administered by municipalities. It is proposed to deal separately with the Primary Education problem in urban areas.

A Rural Primary Education Bill was introduced in the last Legislative Council and examined in Select Committee. The Committee presented a report and proposed a number of amendments. A Bill following closely the Bill as amended by that Committee was introduced in the present Legislative Council and referred to a second Select Committee which has recently reported. Government have not been able to proceed with the Bill as amended by the second Committee and have decided to withdraw it and introduce the present Bill which follows very closely the Bill recommended by the first Select Committee.

4. The main objects of the Bill are—

(1) to provide an authority for each district to control primary education,

(2) to raise the funds necessary for the gradual establishment of universal primary education, and

(3) to provide for compulsory attendance at school.

5. The proposal of the first Select Committee that there should be a Central Primary Education Committee to advise Government has been accepted. The Bill provides for such a Committee and requires the Local Government to consult this Committee before taking action under certain clauses in the Bill.

6. Chapter III creates in each district a controlling body, *viz.*, the District School Board. The constitution of the Board follows closely that recommended by the first Select Committee. The District Magistrate will be a member of the Board for the first eight years in order to ensure that the administrative experience of this officer and his subordinates will be available to the Board during the difficult period of the initiation of the scheme.

7. In order to secure for the expansion of primary education the largest possible funds the recommendation of the first Select Committee has been accepted that the whole of the expenditure required on account of the training of teachers shall be met from provincial revenues and not from the resources provided by the new taxation or from the normal grant which are now being made for primary education and which will be continued when the Act comes into force. It is intended also that the whole of the cost of the inspecting staff shall be met from provincial revenues and not from the District Primary Education Funds.

8. Power has been taken to bring the Act into force by gradual stages in the different districts. This is rendered necessary by the fact that certain preliminary work must be done. The first duties of District School Boards will be to survey the existing state of affairs and to determine where schools are to be sited, constructed or enlarged so that the children of each district can be provided in the most economical and efficient manner with adequate educational facilities. Training schools for teachers must be expanded so as to provide an increased supply of trained teachers. It may not be necessary to impose the cess immediately upon the introduction of the Act, because time will be required to prepare schemes and train teachers even before the work of enlarging existing schools and constructing others is undertaken.

9. The greatest difficulty in connection with the advance of primary education in this province has been the want of money. The Bill proposes to provide this by the levy of a Primary Education Cess similar to the Roads and Public Works Cesses. The yield of the cess is estimated at about one crore of rupees per annum, the whole of which will be earmarked for primary education. The Bill proposes a cess of five pice in the rupee, of which the cultivator will pay three and a half pice and the landlord one and a half pice. As this cess does not touch those whose income is derived from trade, business or profession, a special section empowers each District Magistrate to assess a tax upon persons whose incomes are derived from sources other than the cultivation of land.

10. Chapter VI makes provision for an annual audit of the accounts of the District School Boards, and gives the auditor powers of disallowance and surcharge. The provisions of this chapter are based upon the English Public Health Act of 1875, and embody the recommendations made by the Select Committee.

Compulsory education is dealt with in Chapter IX which provides for the compulsory attendance at a primary school of the children except those that are exempted for well-defined reasons. In response to a widely expressed public demand, provision has been made in Chapter X for the possibility of religious instruction during school hours.

The other features of the Bill are explained in the Notes on Clauses.

NOTES ON CLAUSES.

Clause 1 extends the Bill to the whole of Bengal outside municipal areas and gives power to the Local Government to bring it into force in whole or in part in such districts or parts of districts and on such dates as the Local Government may direct.

Clause 2 consists of necessary definitions of which the most important is that of "child" which includes both boys and girls.

Clause 3 provides for the appointment of the Central Primary Education Committee to advise the Local Government.

Clause 4.—The constitution specified in this clause provides for a non-official majority.

Clause 5.—By this clause the Local Government is required to consult the Central Primary Education Committee on various matters.

Clause 6.—By the constitution specified in this clause the non-official element will be in clear majority in the Board.

In order to correct possible under-representation of particular communities power is given to the Local Government to nominate for each district a number of members corresponding to the number of subdivisions in the district but in no case less than two. Provision is also made for the representation of teachers of primary schools.

Clause 7 gives the usual power to Local Government to appoint members of the Board in default of election.

Clause 8 provides for an appointed President in the first instance and thereafter for one elected by the members of the Board.

Clause 10.—The first sub-clause prescribes how a member may resign and when the resignation shall take effect. The second states the term of office and the third provides for the continuance of the old members in office till the new ones have been actually appointed or elected.

Clause 11.—Sub-clause (*1*) gives the Government the usual power to remove members from the Board in certain circumstances while *sub-clause* (*2*) gives power to the Government to fix a period during which a person so removed shall not be eligible for re-appointment or re-election.

Clause 12 contains the usual provisions for providing for vacancies in the Board that may arise.

Clause 13 provides for the payment of travelling allowances to certain members of the Board and its establishment. As the majority of the members will come from villages in the interior it is essential that they should be given every facility for attending.

Clause 14.—The incorporation of a Board is necessary in order to carry out the purposes of the proposed Act.

Clause 15 empowers the President or the Vice-President to preside at the meetings, or in their absence, gives the members power to elect one of themselves to preside.

Clause 16 makes the meetings of the Board open to the public. This is intended to attract public interest in these meetings.

Clause 17 contains the usual provision that members shall not vote on matters in which they have a personal or pecuniary interest.

Clause 18 gives power to the President to carry on the executive work of the Board and provides for the delegation of his duties to the Vice-President. Provision has been made in *sub-clause* (*4*) for the exercise by the Vice-President of all the functions of the President when the latter's office is vacant.

Clause 19 gives power to the Board to make their own regulations for the ordinary conduct of business at meetings. This clause should be read with clause 65 (*2*) (*l*). The more important matters are provided in the latter clause and the rules framed thereunder must be made by Government. In the less important matters the Board is left to make its own regulations. *Sub-clause* (*2*) makes it clear that none of the regulations under this clause can override the rules framed by Government.

Clause 20 gives to the Commissioner of a Division power similar to that which he has with regard to municipalities to prevent any action by the Board in excess of powers conferred by law.

Clause 21 empowers the Government to order the Board to perform its duty in case of default; and if necessary to appoint a person to carry out such duty if the Board neglects to carry out the order of the Government.

Clause 22 gives the Government power, if the Board is not performing its duties under the Act, to bring into being a new Board. *Sub-clause* (*2*) provides for the interregnum between the supersession of the Board and the filling of the vacancies as a result of fresh nominations or elections.

Clause 23 lays down the duties of the District School Board in the matter of providing for the extension of primary education throughout the district, and in the control thereof either directly or through the agencies of Union Boards and Panchayats. *Sub-clause (1) (n)* makes provision for pensions and a provident fund for the establishment of the Board and teachers in primary schools.

Clauses 24 and 25 are intended to keep the Government in touch with the progress made in each district.

Clause 26 provides for the appointment of the necessary staff and its control by the District School Board.

Clause 27.—This clause is based on section 14 of the Bengal Agricultural and Sanitary Improvement Act, 1920, and extends to the District School Board facilities for the compulsory acquisition of land.

Clause 28.—This clause is intended to vest in the District School Boards all property connected with primary schools now in the hands of District Boards.

Clause 29.—This follows the Bengal Cess Act very closely and the rate of cess prescribed will yield, roughly, one crore of rupees a year.

Clause 30.—This clause is intended to simplify the procedure of the realization of the primary education cess which will be paid automatically along with the road and public works cesses.

Sub-clause (2).—As in the case of the existing cesses the zamindars will pay the entire amount of the cess less the deduction of one and a half pice for every rupee of the revenue.

Sub-clauses (3) and *(4)* provide for payments by the intermediate tenure-holders and the cultivating raiyat.

The cess has been distributed between cultivating raiyat on the one hand and tenure-holder and landlord on the other after taking into consideration the benefit to be received and ability to pay. Cultivator will derive most benefit from the expenditure of the cess and the proposed apportionment recognises this. In consideration of the decisions of two Select Committees Government have decided to require tenure-holders and landlords to pay one and a half pice on their net profits.

Clause 31 prescribes the procedure for the first imposition of the cess.

Clause 32.—This is a general clause bringing the administration of the new cess within the provisions of the existing Cess Act, 1880.

Clause 33.—The provisions of this clause, read with those of clause 38, ensure that the money collected will not be diverted to any purpose other than that of primary education.

Clause 34.—As the Cess Act, 1880, only affects the owners or occupiers of real property, it was necessary to bring in some provision to ensure that those whose incomes were derived from trade, business or profession, should not be exempted. For this purpose a summary procedure is proposed, based on the Chaukidari and Union Board assessment. No appeal is allowed from the assessment of the district magistrate but the amount of tax is limited under this clause to Rs. 100 per annum. The amount of tax so assessed shall be communicated to the Union Board or Panchayat for realization just as a precept is sent to the parish council in England by one of the superior authorities.

Sub-clause (4) empowers the Union Boards or Panchayats to recover arrears as in the case of the existing rates. *Sub-clause (5)* should stimulate collections as it allows 10 per cent. of the amount realized to be retained by the local bodies, while *sub-clause (6)* provides that the money will be safely lodged with the Primary Education Fund of the district.

Clause 36 enumerates the various sources of income which may be credited to the District Primary Education Fund including the various Government grants, the proceeds of the primary education cess, and the tax imposed under clause 34 and all other sums that may be credited to this Fund under the provisions of this Bill.

Clause 37 states the objects on which the Fund may be spent. By putting in the forefront the payment of interest upon loans raised for the purposes of the Act, the Board should be able to raise loans when necessary at a very low rate of interest.

The next two payments are connected with the collection of the cess.

Clause fourthly provides for the payment of cost of audit by the Board.

Clause fifthly provides for the Board's establishment and the provident fund contributions for all the employees whether clerks or teachers.

Clause sixthly allows for the payment of travelling allowances to the members of the Board and its establishment which will be essential if the local representatives are to take a real part in the working of the Board.

All the above items are for comparatively small sums of money, while the main expenditure will be incurred under clause *seventhly* for the cost of construction, equipment and maintenance of primary schools.

Clause 38.—This clause provides safeguards against the misapplication of the money by ensuring that all sums are promptly credited to the Fund and that payments can be made only on a regular procedure.

Clause 39.—This clause provides for a regular budget being submitted every year so that the Government can see that no Board is misapplying its finances.

Clause 40.—This clause and the succeeding clauses up to 49 follow the provisions of the English Public Health Act of 1875 and have been inserted to ensure that the Primary Education Fund can be diverted from its real object only at considerable personal risk of the person responsible for that diversion—whether he be a Government servant or not.

This clause will enable the accounts of each Board being kept in a uniform manner and in consonance with the general finances of the province.

Clause 41 provides for an annual audit.

Clause 42.—To render the audit effective, it is essential that the accounts should be open to the inspection of the public so that any matters about which there are doubts or suspicions can be brought before the auditor.

Clause 43 contains another provision to ensure the publicity of the audit.

Clause 44.—*Sub-clause* (*1*) enables the auditor to call for any document that may be necessary, and gives him power to make his inquiries into the questions that may arise during the audit effective. In *sub-clause* (*2*) the duty of the Board to assist the auditor is specifically laid down.

Clause 45 will enable any person to bring an objection about the accounts before the auditor.

Clause 46.—Under this clause the auditor shall not only decide whether any money has been properly spent or not, but, if it has been wrongfully spent, he will go a step further and ascertain who is to blame and for what sum he is liable in connection with this action. Under *sub-clause* (*2*) the auditor is given similar powers with regard to those who have caused loss to the Board by failing to credit any sums that are due to the Primary Education Fund.

Clause 47.—Against the orders of the auditor one appeal will lie and that to the Commissioner of the Division. As this officer knows the circumstances of the district better than any other, he seems to be a suitable person to decide such appeal. Under *sub-clause* (*2*) a discretionary power is given to him of condoning offences In England such power is vested in the Ministry of Health and is very widely exercised in cases where genuine mistakes have arisen and there has been no deliberate dishonesty or gross negligence. Especially on the introduction of the Act when people are still strange to the new procedure and rules for expenditure, it is necessary that the Commissioner of the Division should have wide powers of making allowances for inexperience, etc.

Clause 48.—Under this clause the procedure has been given for the payment of sums certified by the auditor to be due to the District Primary Education Fund, while *sub-clause* (*2*) provides for a speedy remedy against all persons who make default of payment.

Clause 49 makes certain that no delay will occur in bringing the results of the audit to the notice of both the Government and the District School Board.

Clause 50 gives power to the District School Board to delegate its powers to Union Boards, Union Committees and Panchayats as their agents for carrying on the work in connection with Primary Education within the area under their control As the Union Boards, Union Committees and Panchayats vary very greatly in quality, it is clear that such discretion must be left with the central authority in each district. By this means also the funds are concentrated and accounts simplified. Such delegation will doubtless be used as far as possible but it is essential especially at the start of this scheme, to keep control over procedure within the district as simple and concentrated as possible.

Clause 51.—The incorporation of an Union Committee and a Panchayat is necessary under the proposed Act for the purpose of carrying out its functions.

Clause 52 will enable Union Boards to transfer property or contract under certain prescribed conditions.

Clause 53.—This clause enables any school to apply for recognition as a primary school under the Act and empowers schools to appeal to a higher authority if they are dissatisfied with the decisions of the Board.

Sub-clause (*4*) will enable the Board to recognise at once without waiting for applications all the satisfactory existing primary schools.

Clause 54 makes provision for primary schools, under private arrangement, to obtain grants-in-aid which will enable them to develop their work on their own individual lines

Clause 55.—Before declaring primary education compulsory within an area, Government must be satisfied that there are schools and teachers sufficient for all the children in the area concerned and must consult the local authority in the area.

Clause 56.—Fees cannot be levied upon children who are compelled by law to attend school and this clause merely enforces that principle.

Clause 57.—Under this clause Government is given the power of exempting persons or classes of persons from the compulsion of sending their children to school. Presumably girls might be exempted at first, while boys would have to attend.

Clause 58.—This lays the duty on the guardian of sending his child to school.

Clause 59 enumerates the cases in which a guardian may be reasonably exempted from taking action under clause 58.

Of these exemptions especial notice should be taken of *sub-clause* (*6*). As the children are very largely employed during the special periods of agricultural operations and as such periods vary not only from district to district but within the district, it is necessary to empower the Board to grant exemptions so that all, if necessary, may help their families at this important time

Clause 60.—This clause puts the responsibility of enforcing attendance on the Union Boards, Union Committees or Panchayats concerned.

Clause 61 prescribes the procedure by which the Attendance Committee can bring cases of default on the part of guardians to the notice of the magistrate. Under *sub-clause* (*2*) of this clause the magistrate can direct the attendance of a child at school if he is satisfied that the complaint is well founded.

Clause 62.—This clause takes us a step further when if the action taken both by the Attendance Committee and by the magistrate has failed to force the guardian to present his child at the school, the magistrate can convict the guardian and sentence him.

Clause 63.—In this form and safeguarded by the proviso, it is hoped to provide religious instruction in schools for young children without emphasising religious differences.

Clause 64 contains the usual provision about indemnity.

Clause 65 is the usual clause collecting in one place the various provisions relating to the rule-making powers.

Clause 66 and the Schedule contain the consequential amendments necessary in other enactments.

NOTIFICATION.

No. 11321.—3rd April 1930.—The following Bill which was introduced in the Bengal Legislative Council on the 1st April, 1930, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto:—

THE BENGAL CRIMINAL LAW AMENDMENT (PART CONTINUANCE) BILL, 1930.

A BILL

to amend the Bengal Criminal Law Amendment Act, 1925, for certain purposes.

Preamble. WHEREAS it is expedient to amend the Bengal Criminal Law Amendment Act, 1925, for the purposes hereinafter appearing;

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (3) of section 80A of the Government of India Act to the passing of this Act; 5 & 6 Geo. V, c. 61; 6 & 7 Geo. V, c. 37; 9 & 10 Geo. V, c. 101.

It is hereby enacted as follows:—

Short title. **1.** This Act may be called the Bengal Criminal Law Amendment (Part Continuance) Act, 1930.

Amendment of section 1 of the Bengal Criminal Law Amendment Act, 1925. **2.** In sub-section (4) of section 1 of the Bengal Criminal Law Amendment Act, 1925 (hereinafter referred to as the said Act), for the word "five" the word "ten" shall be substituted.

Repeal of certain sections. **3.** Sections 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 24 and 25 of, and the second schedule to, the said Act are hereby repealed.

STATEMENT OF OBJECTS AND REASONS.

Under section 1 (4) of the Bengal Criminal Law Amendment Act, 1925, the provisions of that Act lapse at midnight on the 23rd April, 1930. Although secret terrorist organisations are still in existence Government have decided to repeal the sections of the Act which enable them to deal with persons suspected of the offences specified in the second Schedule to the Act. But Government are satisfied that it would not be to the public interest to allow the sections which provide a means for the speedy trial of certain offences to be removed from the Statute Book. The present Bill therefore provides for the repeal of the preventive sections of the present Act and for the continuance of the remainder of the Act for a further period of five years.

J. C. ROY,

for *Director of Agriculture, Bengal.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 29th March 1930.

Forecast of the Rabi Crops of Bengal for 1929-30.

(NOTE.—On an average of the five years ending 1927-28, the area under summer rice in Bengal has represented some 0·5 per cent. of the total area under rice in British India.)

Character of the season.—The rainfall during the month of October was heavy throughout the province except only in some eastern districts, with the result that the field preparations for early spring crops were somewhat delayed. Dry weather in the early part of November was advantageous for completion of sowings. Drought extending to the middle of December affected the growth of early crops in places, but rainfall in the latter part of December improved prospects. Slight showers in January assisted development of late crops. On the whole the season may be regarded as fairly favourable.

Acreage.—The normal area under the different spring crops dealt with in this forecast is estimated at 3,215,100 acres. The area actually sown this year is reported to be 2,844,300 acres as against 2,759,100 acres last year. Of this, the area under summer (*boro*) rice is returned at 399,800 acres as against 397,500 acres last year and that under tobacco is 295,400 acres as against 291,200 acres last year.

Outturn.—According to District Officers' estimates, the average outturn of the different *rabi* crops for the province as a whole works out to 80 per cent. of the normal as against 79 per cent. last year, the outturns for the more important *rabi* districts being as follows:—

Mymensingh 75, Dacca 69, Rangpur 100, Faridpur 86, Murshidabad 77, Pabna 100, Noakhali 70, Malda 79, Jalpaiguri 93, Rajshahi 66, Khulna 83, Bakarganj 71, Nadia 68, Tippera 74, Jessore 59, Burdwan 79 and Midnapore 75.

Summer rice and tobacco crops.—The outturn of summer rice, according to district estimates, is 78 per cent. of the normal as against 79 per cent. last year. The gross yield of the crop for the province, on a basis of the normal yield of 14 maunds of clean grain per acre, is estimated at 160,400 tons this year as against 161,500 tons last year.

The outturn of *tobacco* crop is estimated at 93 per cent. of the normal as against the same estimate last year. Taking 12½ maunds as the normal yield of the crop per acre, the gross yield of the crop for the province this year is estimated at 123,600 tons as against 121,900 tons last year.

ROBERT S. FINLOW,
Dir. of Agri., Bengal.

Audit.

NOTIFICATION.

No. 1568F.—10th April 1930.—The Government of Bengal have been pleased to direct that the following amendments be made to the Bengal Financial Rules, 1st edition.—

Page 15.—Insert the following as section XIII—Contracts and Tenders:—

Rule 40A. The following principles are laid down for the guidance of all officers who have to enter into contracts or arguments:—

(1) The terms of a contract must be precise and definite, and there must be no room for ambiguity or misconstruction therein.

(2) As far as possible, legal and financial advice should be taken in the drafting of contracts and before they are finally entered into.

(3) Standard forms of contracts should be adopted wherever possible, the terms to be subject to adequate prior scrutiny.

(4) The terms of a contract once entered into should not be materially varied without the previous consent of the competent financial authority.

(5) No contract involving an uncertain or indefinite liability or any condition of an unusual character should be entered into without the previous consent of competent financial authority.

(6) Whenever practicable and advantageous contracts should be placed only after tenders have been openly invited, and in cases where the lowest tender is not accepted, reasons should be recorded.

NOTE 1.—Tenders should invariably be invited for the supply of articles worth Rs. 250 or more. Administrative Departments may prescribe a lower limit than Rs. 250 where they consider this to be necessary.

NOTE 2.—It will be the duty of inspecting officers to subject to close scrutiny the facts of any case in which a tender is rejected in favour of a tender which, on the face of it, is less favourable to the tax-payers' interest.

(7) In selecting the tender to be accepted the financial status of the individuals and firms tendering must be taken into consideration in addition to all other relevant factors.

(8) Even in cases where a formal written contract is not made, no order for supplies, etc., should be placed without at least a written agreement as to price.

(9) Provision must be made in contracts for safeguarding Government property entrusted to a contractor.

(10) The Auditor-General and, under his direction, other audit authorities have power to examine contracts and to bring before the Public Accounts Committee any cases where competitive tenders have not been sought or high tenders have been accepted or where other irregularities have come to light.

Rule 40B. Administrative Departments are required to see that any detailed rules and regulations on this subject in departmental manuals or codes are kept in conformity with the above principles.

IRRIGATION DEPARTMENT.

Establishment.

NOTIFICATIONS.

No. 13.—7th April 1930.—The following officers of the Irrigation Department passed the Professional Examination held on the 20th January 1930:—

Mr. J. Mackie, Assistant Executive Engineer.

Babu Sachindra Chandra Aich, Assistant Engineer.

No. 2-I.-- 1st April 1930.—In exercise of the powers conferred on him by sections 78 and 99 of Act III (B. C.) of 1876, the Governor in Council proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Bakreswar Canal in the Birbhum district :—

Leases for a term of years.

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the grounds, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions :—

I.—Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II.—All leases within one block shall be so granted that they may expire on the same date.

III.—No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any probability of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″=1 mile when such are available, and elsewhere at scale 16″=1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office ; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall forward the preliminary application to the Executive Engineer, Bankura Division, in order that the detailed assessment may be taken in hand. The lands to be brought under lease shall be indicated on a copy of the map alluded to in rule 5.

7. The Executive Engineer on receipt of the application shall depute an amin to prepare the *khasra* or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and *khasra*. Should the survey map and *khasra* not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the *khasra*, the Executive Engineer shall forward it to the Subdivisional Canal Officer for approval.

9. As soon as the *khasra* has been approved by the Subdivisional Canal Officer, he shall return it to the Executive Engineer endorsed with his signature in token of approval.

The Executive Engineer shall then prepare a *khatian* or abstract of the *khasra*, and shall have the form of application, given as Appendix No. 1 to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Executive Engineer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer The Divisional Canal Officer shall return the application to the Executive Engineer, Revenue Division, with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the Executive Engineer shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No. II to these rules. This application must be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures should be those of the leading cultivators in the block in question and they should represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June, may be presented at the Subdivisional Canal Office or to the Sectional Officer. They must be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised : but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer is empowered to give the required supply by rotation, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17. The rates due for water supplied shall be collected by the Executive Engineer or other officer in charge of the Revenue Division, Bankura, through his staff of tahsildars and peons. All *khatians* or demand statements shall be signed by the Executive Engineer or other officer in charge of the Revenue Division after scrutiny in his office.

18. At the time of preparation of the *khatian* in the Executive Engineer's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. For the purposes of accounts of control over establishment, and of general administration, the Executive Engineer or other officer in charge of the Revenue Division is in the position of an Executive Engineer in charge of a Division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Public Demands Recovery Act the Executive Engineer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water.

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall in deciding the case give his reasons for or against assessment, both as regards the facts and as regards the law ; and he shall determine the rate to be charged, subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment paper prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or *khatian* shall be sent to the officer in charge of the Revenue Division, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Act shall count from the date on which the statement of the charge may be furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or subordinate employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either divisional or subdivisional canal offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

Any such complaints or applications, if presented to the Executive Engineer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

25. 26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

Remissions and Alterations of Demand.

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than 15 days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. Calcutta, the 10th April 1930.

TO HIS EXCELLENCY THE GOVERNOR OF BENGAL.

In the matter of an election petition under Part VII of the Bengal Electoral Rules

and

In the matter of the election of a member of the Bengal Legislative Council from the Mymensingh East (Non-Muhammadan) constituency

and

In the matter of Maharaja Shoshikanta Acharjya Chowdhury (of Keranipara, Mymensingh), petitioner

versus

(1) Satish Chandra Roy Choudhury (of Atharabari Lodge, Mymensingh),
(2) Rai Bahadur Umesh Chandra Chakladar (of Mymensingh),
(3) Padmini Mohan Neogy (of Kalipur, Mymensingh), respondents.

The humble petition of Maharaja Shoshikanta Acharjya Chowdhury, the petitioner abovenamed, residing at present at No. 74, Lower Circular Road, Calcutta.

Respectfully sheweth :—

1. That a vacancy having occurred in the Bengal Legislative Council in the Mymensingh East (Non-Muhammadan) constituency by the resignation of Babu Nalini Ranjan Sarkar, a notification was issued under rule 26(*1*) of the Bengal Electoral Rules in the *Calcutta Gazette* of the 16th January 1930, calling upon the said constituency to elect a person to fill up the said vacancy within the time prescribed therein, and under rule 11(*2*), clause (*a*), of the said rules, the Local Government appointed the 29th January 1930 as the date for the nomination of candidates.

2. That your petitioner was a candidate for election as a member of the said Council in the said vacancy, being a person fully qualified for such election under the rules.

3. That besides your petitioner there were three other candidates at the said election, namely, the three respondents herein, Babu Satish Chandra Roy Choudhury, Rai Bahadur Umesh Chandra Chakladar and Babu Padmini Mohon Neogy.

4. That two nomination papers were filed on behalf of your petitioner before the Returning Officer on the said 29th January 1930, one subscribed by Rai Saheb Chintaharan Mazumdar as proposer and Babu Satyakumar Bose as seconder, and the other by Babu Bhupendra Kumar Shome as proposer and Babu Nilkanta Pal as seconder, the said proposers and seconders being all of them electors duly registered in the electoral roll of the said constituency and qualified to subscribe the nomination papers as such proposers and seconders.

5. That on the back of each of the said nomination papers your petitioner duly made a declaration appointing Babu Sasanka Mohon Ghosh as his election agent, the said Babu Sasanka Mohon Ghosh being fully qualified for such appointment.

6. That in the first of the said nomination papers your petitioner had affixed his own signature as assenting to the nomination, and in the other the declaration of assent was signed for your petitioner by the said Babu Sasanka Mohon Ghosh as your petitioner's duly authorised agent in this behalf under a power of attorney executed by your petitioner in his favour.

7. That your petitioner states that the said nomination papers were duly filled in and completed in the prescribed form, and that there was no failure to comply with any of the provisions of rule 11 or rule 12 of the Bengal Electoral Rules.

8. That on the 30th January 1930, the Returning Officer, Mr. G. S. Dutt, I.C.S., District Magistrate, Mymensingh, held a scrutiny of nominations for the said election, and at the said scrutiny objection was taken to your petitioner's nominations on behalf of two of the other candidates, respondents 1 and 2, on various grounds.

9. That it was alleged *inter alia* that your petitioner's nomination was invalid on the ground :—

(*i*) That your petitioner could not have signed the declaration in the nomination paper after the vacancy which was gazetted on the 16th January 1930, inasmuch as your petitioner has been out of India from before that date, and that your petitioner was not at Mymensingh on the date on which the declaration was made.

(*ii*) That for the same reasons your petitioner could not have appointed his election agent under the provisions of rule 11(*5*) after the vacancy was notified in the Gazette.

10. That with reference to the said objections a statement was filed on behalf of your petitioner before the Returning Officer, setting out the facts regarding the signing of the nomination paper by your petitioner, a true copy of which statement is annexed hereto and marked as Exhibit "A" and to which your petitioner craves leave to refer as part of this his petition.

11. That the facts shortly were that your petitioner left for Europe on the 16th November 1929, but before leaving had, in anticipation of a vacancy which was likely to arise in the Bengal Legislative Council during his absence, signed the nomination paper which was afterwards filed on his behalf after being duly subscribed by his proposer and seconder Rai Saheb Chintaharan Mazumdar and Babu Satyakumar Bose abovenamed in accordance with the arrangement which your petitioner had made with them in this behalf.

12. That before leaving India your petitioner had also executed a power of attorney in favour of Babu Sasanka Mohan Ghosh abovenamed authorising him in the event of any vacancy arising to sign and file nomination papers and do all other acts including the appointment of an election agent for him and on his behalf.

13. That at the said scrutiny the Returning Officer was pleased to uphold the said objections to your petitioner's nominations, and rejected the same, recording in writing a brief statement of his reasons for such rejection, a true copy whereof is annexed to this petition and marked as Exhibit "B".

14. That respondents Nos. 2 and 3, Rai Bahadur Umesh Chandra Chakladar and Padmini Mohon Neogy, afterwards withdrew their candidature within the time allowed for such withdrawal, and the respondent No. 1, Babu Satish Chandra Roy Choudhury, was thus the only candidate left whose nomination had been accepted by the Returning Officer as valid, and he was thereupon declared as duly elected to the Bengal Legislative Council from the said constitutency.

15. That the name of the said elected candidate was thereafter in due course published in the *Calcutta Gazette*, and the return of election expenses filed by the said candidate along with the declarations required by rule 19 of the Bengal Electoral Rules was received by the Returning Officer on the 10th March 1930.

16. That your petitioner submits that the said rejection of your petitioner's nominations by the Returning Officer was wholly improper on the following among other grounds :—

(1) For that the Returning Officer was wrong in holding that your petitioner's signature on the nomination paper was not a valid declaration by him with reference to the particular vacancy, merely because at the time when your petitioner signed the nomination paper, the vacancy had not occurred and been notified in the Gazette.

(2) For that the Returning Officer was wrong in holding that the form of declaration in the nomination paper implied that there must have been at the time of the candidate's signature an actual vacancy to which the nomination had reference.

(3) For that the Returning Officer was wrong in holding that the nomination was *ab initio* void as there was no vacancy at the time to which nomination could possibly be made.

(4) For that the Returning Officer did not correctly appreciate the effect of your petitioner's cable to his election agent from Paris received by the latter on the 21st January 1930.

(5) For that the decision of the Returning Officer is not at all justified by the rules and regulations.

(6) For that the Returning Officer exceeded his jurisdiction in rejecting your petitioner's nominations on the grounds he did.

(7) For that upon a true construction of the rules and regulations, the Returning Officer should have held that it is open to a candidate to be nominated and to sign a nomination paper in view of an impending election or an anticipated vacancy, and that such nomination and such signature are perfectly valid.

(8) For that the Returning Officer should have held that Babu Sasanka Mohan Ghosh was competent to assent to the nomination on behalf of your petitioner as his duly constituted attorney in this behalf, and to sign the declaration for him in token of such assent.

(9) For that the Returning Officer was also wrong in holding that the appointment by your petitioner of his election agent was invalid on the ground that such appointment had been made before the vacancy had actually arisen.

(10) For that the Returning Officer should have held that your petitioner's nomination was valid in all respects and should have accepted the same.

(11) For that none of the grounds on which the Returning Officer may refuse a nomination under regulation XXI of the Bengal Electoral Regulations exists in the present case.

17. That your petitioner states that the result of the said election has been materially affected by reason of the said improper refusal of your petitioner's nomination and/or by non-compliance with the provisions of the Government of India Act and the rules and regulations made thereunder, and submits that the election of the returned candidate is consequently void.

18. That your petitioner begs in these circumstances to present this election petition against the said returned candidate under rule 32 of the Bengal Electoral Rules, and to deposit the sum of Rs. 1,000 as security for the costs of the petition as required by rule 35 of the said rules.

Your petitioner accordingly prays that Your Excellency may be graciously pleased to admit this petition and to appoint Commissioners for the trial of the said, and upon the report of such Commissioners to declare the election of the said returned candidate Babu Satish Chandra Roy Choudhury, respondent No. 1 herein, null and void, and award to your petitioner the costs of and incidental to this petition, and to pass such other or further orders as may be necessary.

And your petitioner as in duty bound shall ever pray.

SHOSHIKANTA ACHARJYA CHOWDHURY.

VERIFICATION.

I, Maharaja Shoshikanta Acharjya Chowdhury, the petitioner abovenamed, do declare that the statements contained in paragraphs 1, 2, 5, 6 (except as to Babu Sasanka Mohan Ghosh signing the declaration), 11, 12, 17 and 18 are true to my knowledge, and those contained in paragraphs 3, 4, 6 (as to Babu Sasanka Mohan Ghosh signing the declaration), 7, 8, 9, 10, 13, 14, 15 are true to my information which I believe to be true and those contained in paragraph 16 are submissions.

Signed this the 24th day of March 1930 at No. 74, Lower Circular Road, Calcutta.

SHOSHIKANTA ACHARJYA CHOWDHURY.

EXHIBIT "A".

The Maharaja left India on the 16th of November last. Before he left Babus Chintaharan Mazumdar and Satyakumar Bose came to him and proposed to nominate him from the Mymensingh East (Non-Muhammadan) constituency, when the next vacancy occurred, which in view of the then political situation of the country might happen any time. The Maharaja accepted the proposal and signed the nomination paper filed here yesterday, and left instructions to Babu Chintaharan Mazumdar to have the said nomination paper completed in all its details, including the date which was to be the date on which it would be filed after a vacancy occurred. The Maharaja also left instructions that Babu Sasanka Mohan Ghosh would be his election agent. In pursuance of this agreement and when vacancy was notified, the signed nomination paper was filled up, and proposer Babu Chintaharan Mazumdar and the seconder Babu Satyakumar Bose put their signatures in the places meant for them, and the rest was filled up under the direction of Babu Chintaharan Mazumdar by Babu Sasanka Mohan Ghosh.

It is further stated that after the vacancy in the constituency was notified, a cable was sent to the Maharaja, in the reply to which he cabled back intimating his assent to stand for this constituency in preference to another constituency at Dacca. This cable was received in Mymensingh on the 21st. The signed nomination form was then filled up except with regard to the date which, according to the instructions left by Maharaja, was to be be the date of filing the nomination.

EXHIBIT "B".

Objection raised by the proposer of Babu Satish Chandra Roy Choudhury—

1. That the Maharaja could not have signed the declaration in the nomination paper after the vacancy which was gazetted on 16th January 1930, as he had been out of India since before that date, and further that he was not at Mymensingh on the date when the declaration was made by him.

Objection raised by the proposer of Rai Bahadur U. C. Chakladar—

2. That in the Electoral Roll the candidate is described as Maharaja Shoshikanta Acharjya Bahadur, whereas in the nomination paper the name is given as Maharaja Shoshikanta Acharjya Chowdhury.

3. Description of the subdivision of the Electoral Roll, Muhammadan or Non-Muhammadan, male or female, is not entered in the nomination paper.

4. The date has not been entered by the candidate himself at the time of his putting his signature.

Objection raised by Babu H. C. Biswas, authorised agent of Rai U. C. Chakladar Bahadur—

That the Maharaja having not been in India after the 16th of January 1930, it is physically impossible for him to have appointed an election agent under the provision of clause (5) of rule 11 after the vacancy was notified in the Gazette.

Papers considered.

(1) Affidavit filed by one Raboti Mohan Das.

(2) A written statement filed by Rai Sahib C. H. Mazumdar, proposer of the candidate.

(3) A cable (and its envelope) from the candidate from Paris P. O. on behalf of the candidate. (The cable bears Mymensingh post mark 21-1-1930).

Rai Sahib Chintaharan Mazumdar, the proposer of the candidate, was also verbally questioned by me.

Objection No. I.—It is admitted by the proposer that the candidate signed a blank nomination paper long before the vacancy occurred and was notified in the Gazette. I hold therefore that the signature is not a valid declaration by the candidate with reference to this particular vacancy. The form of declaration, viz., "I hereby declare that I agree to this nomination," implies that there must have been at the time of the candidate's signature an actual vacancy to which the nomination has reference.

I do not think that the subsequent cable from the candidate that he would prefer this constituency to Dacca can have the effect of validating this declaration which was *ab initio* invalid, as there was no vacancy at the time to which nomination could possibly be made. For these reasons I declare the nominations invalid.

II.—I disallow the objection, as the objector admitted that there is no doubt as to this candidate's identity, and the irregularity in the writing of the name by substitution of "Chowdhury" in place of "Bahadur" is in my opinion not of sufficient importance to invalidate the nomination.

III. I do not consider this irregularity of sufficient importance to invalidate the nomination, as there is no difficulty in identifying the candidate with the voter in the male-Non-Muhammadan subdivision of the Electoral Roll.

IV. I do not regard the omission of the candidate to put the date as fatal to the validity of the nomination, in view of the rulings in the case S. N. Haldar *vs.* S. N. Mallik, case XVI Calcutta (South Constituency M. M. V.) decided on 21-1-1924, and case XXXIV Midnapur South N. M. R., Rai P. K. Das Gupta Bahadur *vs.* C. R. Das, decided in 1924.

V. It is admitted by the proposer that the Maharaja appointed the election agent before he left India, *i.e.*, before the vacancy occurred. I hold that this invalidates the appointment of the election agent, as such appointment cannot be validly made until a vacancy has actually occurred to which it may have reference.

Therefore on the decisions of objection Nos. 1 and 5 the nomination is held invalid.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to continue certain provisions of the Indian Finance Act, 1929, which would otherwise cease to have effect from the 1st April 1930; to levy an import duty on silver subject to a full drawback; to raise the import duties on sugar and cotton piece-goods; to raise the export duty and reduce the import duty on kerosene; to reduce the export duty on rice; to increase the rates of income-tax and super-tax in certain grades; and to enable Reparation receipts to be appropriated to revenue. The new measures have been explained at length in my budget speech. The following is a brief explanation of the individual provisions.

2. Clauses 3 and 5 provide for the continuance, for a further period of one year, of the rates of salt duty and postage prescribed by the Indian Finance Act, 1929, while clause 8 provides for the credit to revenue, till the 31st March 1931, of interest on securities forming part of the Paper Currency Reserve.

3. Clause 4 provides for the following alterations in customs tariff :—

(*i*) Levy of an import duty of 4 annas an ounce on silver bullion and coin as specified in Schedule I, with a full drawback in the case of re-exports, which is provided by clause 2. This is expected to yield Rs. 1 crore in 1930-31.

(*ii*) Increase of the import duty on all kinds of sugar and sugar candy, but not molasses, by Re. 1-8 per cwt. In the case of sugar below 8 Dutch Standard and sugar candy, this will mean the levy of a composite duty of 25 per cent. *ad valorem* plus Re. 1-8- per cwt. This is calculated to yield Rs. 1,80 lakhs in 1930-31.

(*iii*) Increase in the import duty on cotton piece-goods from 11 per cent. to 15 per cent. *ad valorem*, which is expected to bring in Rs 1,25 lakhs next year.

(*iv*) Reduction in the import duty on kerosene from 2½ annas to 2¼ annas a gallon. This is coupled with the increase in the corresponding excise duty from 1 anna to 1¼ annas a gallon which is provided for in clause 7. While the latter measure will yield an additional 50 lakhs, the former will cost Rs. 15 lakhs in 1930-31, but will help generally to keep down the price.

(*v*) Reduction in the export duty on rice from 3 annas to 2¼ annas a maund which will cost Rs. 30 lakhs to Government next year but is designed to remove the disparity, which at present exists, between the Indian export duty and that imposed by Siam.

4. Clause 6 provides for the continuance for another year of the rates of income-tax and super-tax prescribed by the Indian Finance Act, 1929, with an increase of a pie in the rupee in rates of

(*i*) income-tax on incomes of Rs. 15,000 and upwards, and

(*ii*) super-tax with the exception of companies' super-tax.

This addition is expected to yield a revenue of Rs. 70 lakhs in 1930-31.

5. Clause 9 seeks to repeal section 7 of the Indian Finance Act, 1926, which requires that Reparation receipts subject to certain reductions should be appropriated for the reduction or avoidance of public debt. The repeal will release the receipts for revenue purposes. The amount which will be so released in 1930-31 will be Rs. 32 lakhs.

1. **Public Health.**—(Statistical, Epidemiological and General Public Heath Administration.)

Population.—For the purpose of this review the total population of Bengal, excluding the Chittagong Hill Tracts, is taken as 46,522,293 (1921 Census).

The vital statistics for the year 1928 taken as they stand show an increase of almost 1,00,000 in the number of births over those for the previous year, 1,375,680 as against 1,286,863 and practically stationary figures for deaths, 1,189,015 as against 1,189,370 in the previous year. On this basis the provincial birth rate rose from 27·7 per thousand in 1927 to 29·6 per thousand in 1928, as against the quinquennial average of 28·8; but remains the lowest provincial birth rate in India except that of Burma. The aggregate birth rate in rural areas (30·2) was nearly fifty per cent. higher than in urban areas (20·4), but no exact inference can be drawn from these figures as to industrial vital statistics as the towns include the numerous rural townships in Bengal. The death rate for the whole province was 25·5 per thousand as against 25·6 per thousand in 1927.

The Director of Public Health has occasion to point out every year that these figures can only be taken as a collateral index to the true vital statistics and would estimate the margin of error to be as high as 27 per cent. The transfer of the duty of recording vital statistics to Union Boards has increased the Director's difficulties in obtaining these essential figures and even in the municipalities supervision over registration of births and deaths is far from adequate. No less than ten municipalities returned the quite impossible death rate of less than 10 per thousand. The vital statistics for the province must therefore be approached with some reserve until the Census of 1931 provides the oportunity of testing their results over the last decade. The decrease of population in Hooghly and Jessore districts continued; but there was an excess of births over deaths in twenty-two districts in the province.

There was a check in the progressive decrease of infantile mortality which has been a feature of the vital statistics in recent years. This figure which had fallen from 228·3 per 1,000 in 1919 to 178 per 1,000 in 1927 remained practically stationary in 1928 (178·1 .per 1,000).

The Calcutta Corporation and the Dacca Maternity and Child-welfare Trust continued to give special attention to midwifery and to the care of infant life with excellent results. In Calcutta 7 maternity units were at work in charge of 5 Lady Health Visitors assisted by 22 nurses, against 5 in 1927. They attended 6,541 cases as compared with 4.748 in the preceding year and the death rate during the first ten days of infancy among the cases attended excluding still-births, was only 19·2 per mille as against 35·5 per mille in 1927, while the general mortality rate within the first week of infancy in the city was 116·9 per mille. In Dacca two maternity centres worked as before during the year and of 4,318 births registered in the city 1,381 were attended to by the centre staff. The rate of reported mortality within 10 days of infancy among the cases attended to by the staff was 4·2 per cent. as against 9·62 per cent. among infants in the rest of the town.

Over a thousand dais were given elementary training by local bodies or associations with the help of Government grant, and the total number of Exhibitions and Baby Weeks was more than doubled (166 as against 67).

Cholera.—The year 1928 continued to show a rise in the curve for mortality from cholera with a rate for Bengal in excess of that of any other province in India and more than double the quinquennial average. The total number of deaths was 136,245 in 1928 against 118,377 in 1927, showing an increase of 16·0 per cent. As in the previous year, preventive measures taken comprised inoculation, disinfection of water-supplies, disinfection of infected houses and of the patients' clothes. Eighteen medical officers and temporary staff of 5 Sub-Assistant Surgeons and 100 Sanitary Inspectors were deputed to assist local bodies in checking outbreaks. Propaganda work was carried on by means of lectures and magic lantern demonstration given by the Government Publicity staff and the local sanitary officers. Special measures were taken to inoculate pilgrims for the Puri Rathajatra and the Ganga Sagar Mela.

There was a further increase in inoculations for cholera during the year under review. 2,304,457 cubic centimeters of cholera vaccine were issued during 1928 against 1,299,630 in 1927 and the number of inoculations performed rose to 1,941,023 from 781,872 in 1927. It is to be remembered that preventive inoculation is a new measure in Bengal so that high figures for cholera mortality are likely to go hand in hand with activity in inoculation against cholera until the practice is sufficiently widespread to be adopted beforehand in anticipation of an epidemic.

Small-pox.—Even in the case of small-pox the statistics for 1928 go to show that the ideal of preventive efficiency in which vaccination can preclude an epidemic is far from having been reached. A quinquennial epidemic which had been forecasted began in 1924. The curve in 1928 was still rising, with 43,558 deaths as against 42,514 in 1925, and 5,567 in 1924 the zero year; and the one district which attempted an organized campaign of mass vaccination (Malda) was that which returned the highest ratio of small-pox mortality 3·27 per thousand. The reason is obvious. Intensity of preventive action still follows, rather than anticipates, an epidemic; and this feature is further illustrated by the statistics for vaccination in the province as a whole. During the year under review there were 5,281,419 vaccinations of which 2,052,217 were primary vaccinations and 3,229,202 re-vaccinations, successful vaccinations being 92·9 per cent. and 56·5 per cent., respectively. The number of successfully vaccinated children under one year was 262,982 against 281,727 in the previous year, while the total number of births, excluding infant deaths of 241,974 was 1,126,812 during the same period. Protection was therefore given to only about 24 per cent. of the surviving infants. This was due to the unwillingness of parents or guarians to have their children vaccinated under the age of one year.

The Director of Public Health reports that district boards are actively engaged in organising vaccination to counter the further epidemic anticipated and Government have recently drawn their attention to the necessity of taking special steps for the purpose.

Malaria and kala-azar.—In contrast to the increase in the two periodical epidemics to which this province is exposed it is satisfactory to find a very definite decrease in mortality both from malaria and kala-azar. Deaths from malaria were reported at 368,691 as against 429,143 in 1927 and 458,208 in 1926. Even after allowances are made for the inevitable vagueness of returns on which statistics are based a reduction of over 24 per cent. in two years in deaths from a disease which in its nature is not liable to the sharply recurring curves of small-pox and cholera does seem to give grounds for hope that the attention and expenditure devoted to this cause by the Public Health Department in the past few years are bearing fruit. Similarly in the case of kala-azar the decline which was noticed as a satisfactory symptom in last year's report still continued, 10,746 deaths being reported as against 11,855 in 1927. The total number of deaths from fever 752,007 as against 789,006 in 1927 represents a nondescript mortality, the importance of the figure for the purpose of statistics being chiefly in the fact that the decrease precludes any idea that mortality from malaria has been transferred to this head.

In reviewing the record of District Boards in 1928-29, the Ministry of Public Health had occasion to dwell on the progress and prospects of the scheme for establishing a rural health unit in charge of a sanitary officer in each police station, and it need only be mentioned here that in 1928 the total number of these units had risen to 272, a figure by now nearly doubled.

Public Health Engineering.—During the year 1928 the Chief Engineer formally made over to the Titagarh Municipality the sewerage works constructed at a total cost of Rs. 10,67,405 including a Government grant of Rs. 3,55,000. These works represent the first attempt to sewer an industrial municipality in the mill area and are likely to prove of much interest as attention turns towards the improvement of industrial health in the vicinity of Calcutta. Technically their most interesting feature is the introduction of the new process of actuated sludge, the possibilities of which for a small sewerage scheme of this kind are far-reaching. For the rest the activities of the Engineering Branch continued on a scale restricted by the general financial conditions.

The Naihati water-supply scheme was completed and the unfiltered water required for the sewerage system was provided at Dacca. Work was in progress on waterworks at Khulna, Comilla, Patuakhali, Faridpur, Pabna, Midnapore, Burdwan and Asansol.

Personal.—Dr. C. A. Bentley, C.I.E., and Mr. F. C. Griffin were in charge throughout the year of the respective offices of Director of Public Health and Chief Engineer, Engineering Branch, and the Government of Bengal desire again to express their appreciation of their services.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 11th April 1930.

Monthly Weather and Crop Report of Bengal for March 1930.

I. **Character of the season.** During the month under review, the rainfall was generally in excess of the normal in East and North Bengal and below the average elsewhere.

The usual rainfall statement is appended.

II. **Progress of agricultural operations.** Good rainfall during the month enabled the cultivators to make satisfactory progress with the sowings of jute and paddy in the lowland tracts of East and North Bengal. Harvesting of spring crops was approaching completion. Planting of sugarcane setts continued favourably.

III. **State of standing crops.** Some late spring crops were affected by rainfall at harvesting time.

IV. **Prospects and probable outturn.** The outturn of summer rice is expected to be about 78 per cent. of the normal. The prospects of standing crops were reported to be satisfactory on the whole.

V. **Damage to standing crops.** No damage to standing crops was reported from any part of the province except that from Howrah where the mango crop was reported to have been partially damaged by hail during the third week of the month.

VI. **Condition of agricultural stock.** The condition of live-stock was reported to be generally fair. Stray cases of cattle-disease were, however, reported from eight districts of the province and from the States of Cooch Behar and Tripura.

VII. **Failure of pasturage and fodder.** Some insufficiency of fodder continued to be reported from parts of the Tripura State.

VIII. **Prices of food-grains.** During the second fortnight of the month, the price of common rice of the cheapest quality rose in six districts, fell in six and remained stationary in the rest of the Presidency. The prices ranged from 5 seers per rupee in the 24-Parganas to 9¼ seers per rupee in Burdwan and the Chittagong Hill Tracts.

IX. **Condition of agricultural population.** The condition of agricultural population continued to be fair on the whole.
